

Deloitte.

Your future begins here

Put your knowledge into
practice and discover a
career that works for you

GRADUATE PROGRAMME

What's it like to work at Deloitte?

Come and find out by enrolling in our Graduate Programme and meet the people who will inspire you to achieve.

Our **Graduate Programme** is designed for students reading for a degree in a degree in B.Com, Law or Information Technology, Criminology, Maths, Statistics and related areas. or A Masters in Accountancy.

Learn more: deloitte.com/mt/students

You'll be involved in projects from day one, applying the knowledge you're gaining at university. This experience will help you grow, and it will give you the opportunity to explore different business areas to see the types of projects that really inspire you. Furthermore, upon completion of your studies, you will be able to join Deloitte on a full time basis.

If you are reading for a degree in B.Com, Law or Information Technology, Criminology, Maths, Statistics and related areas. or A Masters in Accountancy then learn more about how the programmes can help you in your studies. **Start your journey with us and let us support you along the way.**
