

Cloud Architect

We are looking for ambitious **Cloud Architects** to support our dynamically growing advisory team responsible for developing strategies, planning implementations and migrations for Clients. We are looking for persons with strong Microsoft Azure, Google Cloud Platform or Amazon Web Services skills.

What we expect:

- At least 8 years of professional experience.
- Very good knowledge of at least one of the leading cloud computing platforms — MS Azure, AWS or GCP;
- Experience in developing cloud infrastructure and solutions, including hybrid solutions;
- Experience in on-premise to cloud migrations will be an asset;
- Knowledge of Infrastructure as a Code;
- Knowledge of selected cloud architecture patterns, e.g. Lambda Architecture, Real-Time Data Processing, Containerization, Web Applications, IoT Solutions, Big Data.
- Experience in team management;
- Knowledge of the English language (C1 level);
- Willingness to learn about new clouds to eventually specialise in one solution, having good knowledge and understanding of an additional cloud.

Your future role:

- Designing and developing cloud application architecture;
- Developing solutions based on the Cloud Native architecture;
- Designing and planning migration of Clients' environments to the Cloud;
- Collaborating with Clients, carrying out implementation projects in a public cloud;
- Ensuring knowledge transfer to Clients (workshops, presentations).

What we offer:

- Opportunity to participate in innovative multi-cloud projects using the latest technologies in Poland and abroad.
- Unique culture of the function and the entire organisation focused on growth, interesting projects and mutual trust.
- Latest tools and access to training and mentor support.
- Medical package for you and your family
