

Cloud Developer

We're looking for ambitious **Cloud Developers** to join our dynamic Cloud Engineering team at Deloitte to deliver interesting public cloud projects: implementation, migration and development of new cloud computing solutions.

What we expect:

- At least four years of experience as a developer;
- Knowledge of at least one of the following languages: Java/C#/Python/Node.js;
- Experience in cloud computing (AWS or Azure or GCP);
- Cloud certification (e.g. AWS Developer Associate, AWS SA Associate) will be an asset;
- Knowledge of Git;
- Basic knowledge of Bash or PowerShell;
- Knowledge of 12 factor app principles;
- Knowledge of containerisation will be an asset;
- Verbal and written communication skills in English;
- Advanced problem-solving skills.

Your future role:

- Developing new Cloud Native software on AWS/Azure/GCP;
- Introducing changes to the existing software;
- Maintaining the existing solutions on AWS/Azure/GCP;
- Developing production environments compatible with a public cloud;
- Working with services from PaaS suppliers.

What we offer:

- Opportunity to participate in innovative multi-cloud projects using the latest technologies in Poland and abroad.
- Unique culture of the function and the entire organisation focused on growth, interesting projects and mutual trust.
- Latest tools and access to training and mentor support.
- Medical package for you and your family
