

Junior Cloud Developer

We're looking for ambitious **Junior Cloud Developers** to join our dynamic Cloud Engineering team at Deloitte to deliver interesting public cloud projects in Poland and abroad: implementation, migration and development of new cloud computing solutions.

What we expect:

- Ideally one-two years of experience as a developer;
- Knowledge of at least one of the following programming languages:
- Java/C#/Python/Node.js;
- Knowledge of Git Version Control System;
- Basic knowledge of shell scripting (Bash, Powershell)
- Advanced problem-solving skills;
- Experience in cloud computing or iPaaS design/development will be an asset;
- Cloud certifications (e.g. AWS Developer Associate, AWS SA Associate, iPaaS like Mulesoft Certified Developer) will be also an asset;
- Verbal and written communication skills in English

Your future role:

- Developing new software based on such models as Cloud Native on AWS/Azure/GCP or iPaaS solutions (Mulesoft, Dell Boomi, Apigee, WSO2)
- Introducing changes to the existing software;
- Maintaining Cloud/iPaaS solutions
- Developing production environments compatible with a public cloud;
- Working with services from PaaS suppliers.

What we offer (TBC):

- Opportunity to develop innovative multi-cloud projects using the latest technologies.
- Unique culture of the function and the entire organisation focused on growth, interesting projects and mutual trust.
- Latest tools and access to training and mentor support.
- Medical package for you and your family
