

Senior Cloud Developer

We're looking for ambitious **Senior Cloud Developers** to join our dynamic Cloud Engineering team at Deloitte to deliver interesting public cloud projects: implementation, migration and development of new cloud computing solutions.

What we expect:

- At least five years of experience as a developer;
- At least three years of experience in cloud computing (AWS or Azure or GCP);
- Knowledge of at least one of the following languages: Java/C#/Python/Node.js/Golang;
- Experience in public cloud migrations;
- Experience in creating new public cloud solutions;
- Knowledge of microservices, distributed architecture, Serverless;
- Knowledge of Infrastructure as a Code will be an asset;
- Knowledge of containerisation (Docker, Kubernetes);
- Experience in CI/CD processes;
- Eagerness to continuously develop one's skills;
- Verbal and written communication skills in English;
- Advanced problem-solving skills

Your future role:

- Supporting clients and the team in cloud computing development and implementation projects;
- Developing new and expanding existing cloud systems;
- Supporting clients in migrating their existing on-premise systems to public clouds;
- Drawing up documentation.

What we offer:

- Opportunity to participate in innovative multi-cloud projects using the latest technologies in Poland and abroad.
- Unique culture of the function and the entire organisation focused on growth, interesting projects and mutual trust.
- Latest tools and access to training and mentor support.
- Medical package for you and your family
