

Junior Manager Financial Advisory Services (FAS)

Aruba

The function

As a Jr. Manager you help lead the FAS team with operational activities. You develop a good understanding of client's business by detecting the needs of the clients and translate these into opportunities and build and nurture relationships with clients providing high quality deliverables and communications. You assist the client by helping them identify, prioritize and resolve strategic financial issues with the support of the FAS team. You assist in analyzing financial and valuation data and turning that data into actionable ideas and consumable reports for the FAS Senior Manager. You provide the FAS team with ideas for optimization and or innovation on projects.

Your profile

You have a bachelor's degree in Finance, Economics or Accounting. A Master's degree is a plus. You have financial analysis/modeling and valuation experience and 6 to 8 years of relevant work experience with a professional services firm. You have excellent computer skills especially Microsoft Excel and strong analytical skills. You are pro-active self-learner and show initiative, you work accurately and have a great sense of responsibility. Additionally, you are independent and have excellent communication skills in both English and Dutch. Papiamento is a plus.

Your profile

Deloitte Dutch Caribbean offers competitive terms of employment, career opportunities and a pleasant work environment.

Procedure

For further information please contact Mrs. Lia Tadema, Senior Manager, via (+5999) 433 33 33. You can send your application letter and resume to ddchrm@deloitte.cw.

An assessment and reference check may be part of the selection process. Your application will be handled confidentially.
