Seminar Women in Leadership **Women Mean Business**

Even though women have made progress in moving to higher-level leadership positions in organizations they still face incredible challenges along the way. Women need each other to get to the top. This interactive and intense seminar of *Women in Leadership* will address some of the challenges that women face when climbing the career ladder and when leading organizations and people.

Key topics of the seminar are: leadership, effective communicating and networks. During the workshop participants will explore best practices, share insights, learn about the latest research, compare experiences, and discuss their ideas and challenges with each other. Since the program is highly practical, participants can put what they have learned into practice immediately.

About Dianne Bevelander, MBA, PhD

Professor Dianne Bevelander is the Executive Director of the Erasmus Centre for Women and Organizations at Rotterdam School of Management (RSM), Erasmus University in the Netherlands. She teaches personal leadership development to executives and graduate students at the RSM and at various other business schools internationally. Dianne's primary research interests relate to management education, social network theory, and the development of human capital, with particular emphasis on the career development of professional women. Dianne is a member of a number of international educational boards and is regularly included in conferences, keynote addresses, and plenary talks. Dianne has an MBA from the University of Cape Town, South Africa and a PhD from the University of Lulea, Sweden.
