

The State of Cyber Security in the Dutch Caribbean

Benchmarking the maturity of Cyber Security

Cyber criminals are active in the Dutch Caribbean. Imagine that your website has been hacked, confidential data from your organization or clients has leaked, or you are asked to pay a ransom to release your data. How well are companies in the Dutch Caribbean prepared to prevent or defend themselves against cyber incidents? Are companies aware of all the potential attack vectors and vulnerabilities?

Deloitte Dutch Caribbean has performed the Dutch Caribbean Cyber Security Study 2016 in order to investigate trends and the current maturity of Cyber Security practices in the Dutch Caribbean.

We cordially invite you to this event, where we will present current (local) cyber security trends linked to results of our study, and discuss how companies around you are protecting themselves against cyber criminals.

Attend the event in Aruba

Date/Time: 26th of October from 10.00 – 12.00

Location: Atia, Gallegostraat 6, Oranjestad, Aruba

Costs: Free

Registration: If you are interested to attend the event on Aruba please send an email to: Ashiq Nanhekhan; ananhekhan@deloitte.aw to register.

Date, time and location for the event in Curacao will be announced shortly.
