Cyber everywhere
Capabilities in Asia Pacific
Cyber is hard. We’ll be there.

Cyber isn’t merely a technology issue. It’s a strategic business risk that will continue to impact every facet of every organisation.

As the world becomes more connected, cyber threats are growing in number and complexity. Cyber is moving in new directions—beyond an organisation’s walls and IT environments and into the products they create, the factories where they make them, the spaces where their employees conceive them, and where customers use them. It’s at our work, in our homes, and in our lives. With new and ever-evolving challenges will come extraordinary opportunities. It’s time to embrace cyber everywhere.

In this new era of cyber everywhere, organisations are called upon to align their priorities and work in concert to drive core business objectives. Cyber is everyone’s responsibility.

Clients turn to Deloitte because we can help, because we won’t leave when it’s hard, because we can bring the depth and breadth of the world’s leading professional services organisation to our clients.

Deloitte Cyber helps organisations create a cyber-minded culture and become stronger, faster, more innovative, and more resilient in the face of persistent and ever-changing cyber threats. And we do it by:

- providing the services and technology solutions needed by our clients to help them maintain the viability and success of their businesses and customers—as well as in governments, communities, and families
- investing in training, infrastructure, and people who will work to navigate the complexity of tomorrow
- engaging leaders in meaningful discussions about the cyber challenges they face—and new ones that may be on the horizon
- leading the way with collaborative threat intelligence from government to business and business to government
- deepening our commitment to help our clients become perpetually prepared, more responsive, and resilient as challenges evolve and threats become more complex.

Cyber everywhere.
Grow anywhere.
Innovate anywhere.
Advance anywhere.
Breakthrough anywhere.
Succeed anywhere.
Cyber is everywhere. So are our services.

Cyber is about starting things. Not stopping them. Creating the control that builds the freedom to create.

With human insight, technological innovation, and enterprise-wide cyber solutions, Deloitte Cyber will work alongside you to help you find answers and solve the complexity of each challenge, from the boardroom to the factory floor. **Adding value to clients in the financial services industry**
Deloitte assisted a financial regulator in Asia Pacific in developing IT security and cyber security notifications, Data Leakage Prevention, and performed a thorough review of the regulator’s IT systems. We also helped to facilitate awareness among financial institutions on the importance of cyber security and resilience in the industry.

**Adding value to clients in the manufacturing industry**
Deloitte provided Industrial Control Systems cyber managed services for a large steel manufacturer in India. Deloitte transformed the client’s Enterprise Security capabilities including designing and implementing a Security Operations infrastructure, which enabled the client to be a real time, agile, informed, and connected enterprise.
