

## Financial Consultant

### Your job

As a Financial Consultant, you will work in a dedicated team, together with more senior colleagues who will guide you and share their knowledge and experience. Being part of the largest professional services firm in Belgium, you will work in diverse/international teams for clients that are large national companies and/or multinationals.

In your role of Financial Consultant, you will advise our clients in all their finance management related challenges such as planning, budgeting and forecasting, reporting, consolidation, closing, internal controls, risk, ... . Initially, your focus will be on process and financial analysis, using process mapping techniques, workshops, financial modeling (including valuation of financial instruments), and you will design processes and/or configure applications to support the client's financial needs.

As you increase your knowledge and experience, you will also become involved in the (re)design of financial processes and in developing and implementing recommendations. Next to that, we are also looking for Financial Consultants to join our Financial Advisory Services team that addresses mergers, acquisitions,

disposals and restructurings and real estate services. In that role, you will provide advice, support and solutions for commercial, operational and transaction challenges the client faces.

### Your learning

When you start at Deloitte, you will learn all there is to know about finance, how to apply this knowledge in practice, and you will develop your task management skills. As you grow in your job, you will take on a more senior role, and you will have the opportunity to learn how to delegate tasks and how to coach your colleagues.

When you get more proficient in combining these various skill sets, you may take the lead on projects, deal with clients on a senior level and continue to develop your management competencies. Everybody who starts with Deloitte gets extensive induction training. Throughout your career, we expect you to focus on continuous learning and coaching-on-the-job. At Deloitte, you will see a lot of different clients and projects, allowing you to combine these experiences and share them with your colleagues or convert them into innovative proposals for upcoming projects.

### **In this job you will:**

- conduct assessments of financial processes and risks;
- analyse our client's financial past and projected performance and perform company benchmarking;
- advise on needed changes in our client's financial processes, organisation and technology;
- design and perform internal control tests to ensure that the client's financial processes are compliant with the prevailing legislations;
- define and implement future management reporting for our clients;
- provide mergers & acquisitions and real estate support;
- advise on valuation issues.

### **Your profile**

- You are a dedicated and flexible team player who will not settle for less than excellence in whatever you do;
- You have outstanding analytical skills combined with a client-oriented focus;
- You are assertive, open-minded, enthusiastic and flexible;

- You are dynamic and have strong business writing and presentation skills;
- You have a keen interest in financial technologies (financial software simulations, BI software,...);
- You are fluent in English, Dutch and French.

Proficiency in common business tools (e.g. software application packages, process mapping tools and data analyses) is an asset.

### **Your educational background**

You have a Master in (Applied) Economics, Commercial Engineering, Management, Finance, Mathematics, Actuarial Sciences or any other business related degree.

An additional degree in Finance is not required, but an additional asset.

### **Your office**

Diegem

However some of the time you will be working at the client.
