

Finance Organisation & Strategy

- Are you new in your role as CFO and do you want to evaluate the current Finance Vision and Strategy?
- Do you want to know how mature your Finance Organisation is compared to your peers?
- Are you struggling to align your Finance Operating Model with the vision on finance, business growth and strategy?
- Are you looking to increase the service level your Finance Organisation delivers to its stakeholders?
- Are you experiencing difficulties with transforming your Finance Organisation into a value adding Business Partner?
- Are you not sure how to translate your Vision on Finance into an actionable roadmap?

How we can help?

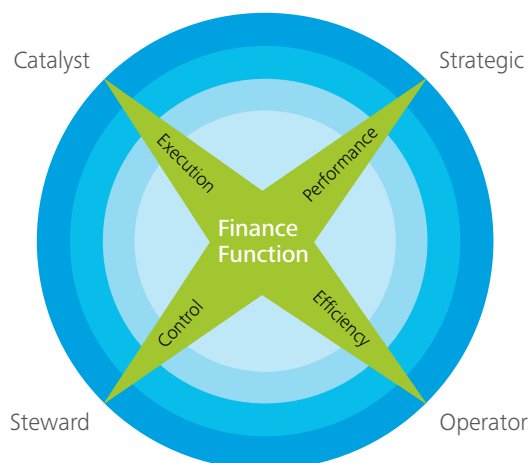

Our solutions are designed to join CFO's on their journey to transform their Finance Organisation. We can offer you:

- A one-day, **Finance** focused **Workshop**, to define the long-term Finance Vision and Strategy;
- A **Finance Maturity Assessment or Benchmarking** study to assess the Finance Organisation performance and capabilities compared to your peers;
- Assistance with determining an appropriate Finance **Operating Model**;
- Our proven Finance Business Partnering Methodology to transform your Finance Organisation into a value adding Business Partner.
- A number of proven tools and methodologies essential in translating the strategic Finance Vision to an actionable **Transformation Roadmap**.

Bottom-line benefits

- A **Finance Vision & Strategy** to support the execution of the organisation's Corporate strategy;
- A qualitative study which will show you where to focus in order to bring your Finance Organisation in synch with best **practices**;
- A more effective and powerful **Finance Operating Model**;
- A Finance Organisation being an effective **Business Partner** that can lead to better and faster business decision-making.
- A solid and **realistic business case** and **roadmap** leading the Finance Transformation to success;

The four faces of the CFO

Some things are fundamental to a well-run business, and solid Finance Operations is one of them. Getting it right means you'll have more time to focus on making better business decisions. Getting it wrong means you're in for a world of trouble.
