The background of the slide is a dark, grayscale image of a truck chassis, showing various mechanical components like the suspension, axles, and wheels. A semi-transparent dark gray rectangle is overlaid on the center of the image, containing the main title text.

Logistics & Distribution: Revenue driver or necessary evil?

Deloitte Introduction

Logistics & Distribution | A source of competitive advantage

September 2017

In a constantly changing environment with increasing complexity, which questions are keeping our clients up at night?

Emerging trends in the logistics & distribution spectrum

Examples of client projects

Introduction to Deloitte & references

Contact

"How to find an optimal balance between inventory and warehousing costs?"

"What is a Digital Supply Network, which benefits does it offer, and which technological advances to prioritize?"

"Should we differentiate and segment our supply chain, and what is the best way to approach this?"

"How should our logistic systems blueprint be designed?"

"How do we create more revenue and be more competitive by leveraging our supply chain as a source of competitive advantage?"

"Which partnerships (3PL/LLP/4PL) am I looking for and how can I make these collaborations a competitive advantage?"

"When we are introducing an online channel, how do we set-up our logistics and how to deal with speed and reverse logistics?"

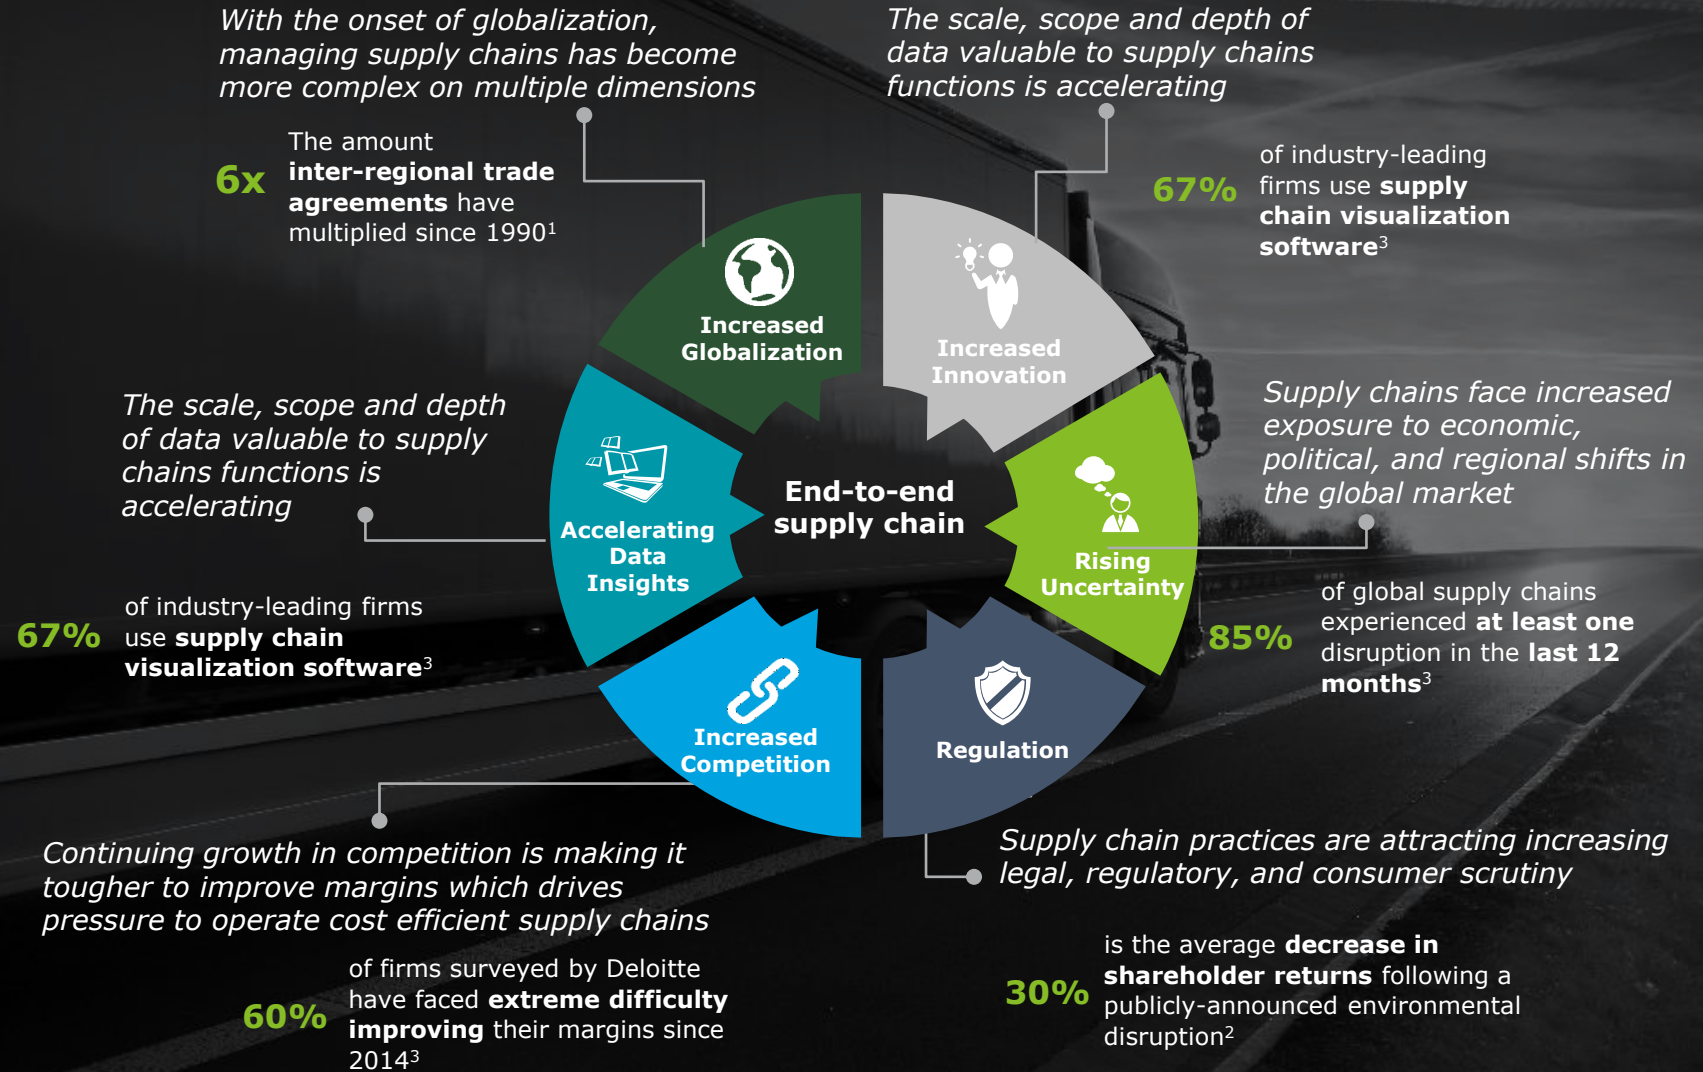

Which global trends are encouraging organizations to redesign their supply chains in an increasingly complex environment?

Service

Competes on meeting customer needs in terms of product quality, specifications, and tailoring product to specific customer needs

Speed

Competes on getting product out quickly to customers

Agility

Competes on meeting changing needs of the business or customer; can adapt to shifting demand signals

Cost

Competes on driving out cost in their supply chain to offer a lower cost product, material, or service

Quality

Competes on high-quality; brand is associated with quality and commands a premium for the product, material or service

Innovation

Competes on offering best-in-class products or services as a result of cutting-edge R&D

Efficient

Cost reduction and speed-to-market are at the top of operational priorities

Flexible

Dynamic solutions are needed to react to unique changing demand and supply chain risks

Customized

Defining and serving new markets through tailored supply chain solutions

Visible

New tools are required to provide real time transparency across the entire supply chain

Digital

Traditional linear supply chain nodes are collapsing

Global

Supply chains cross global boundaries and require local execution

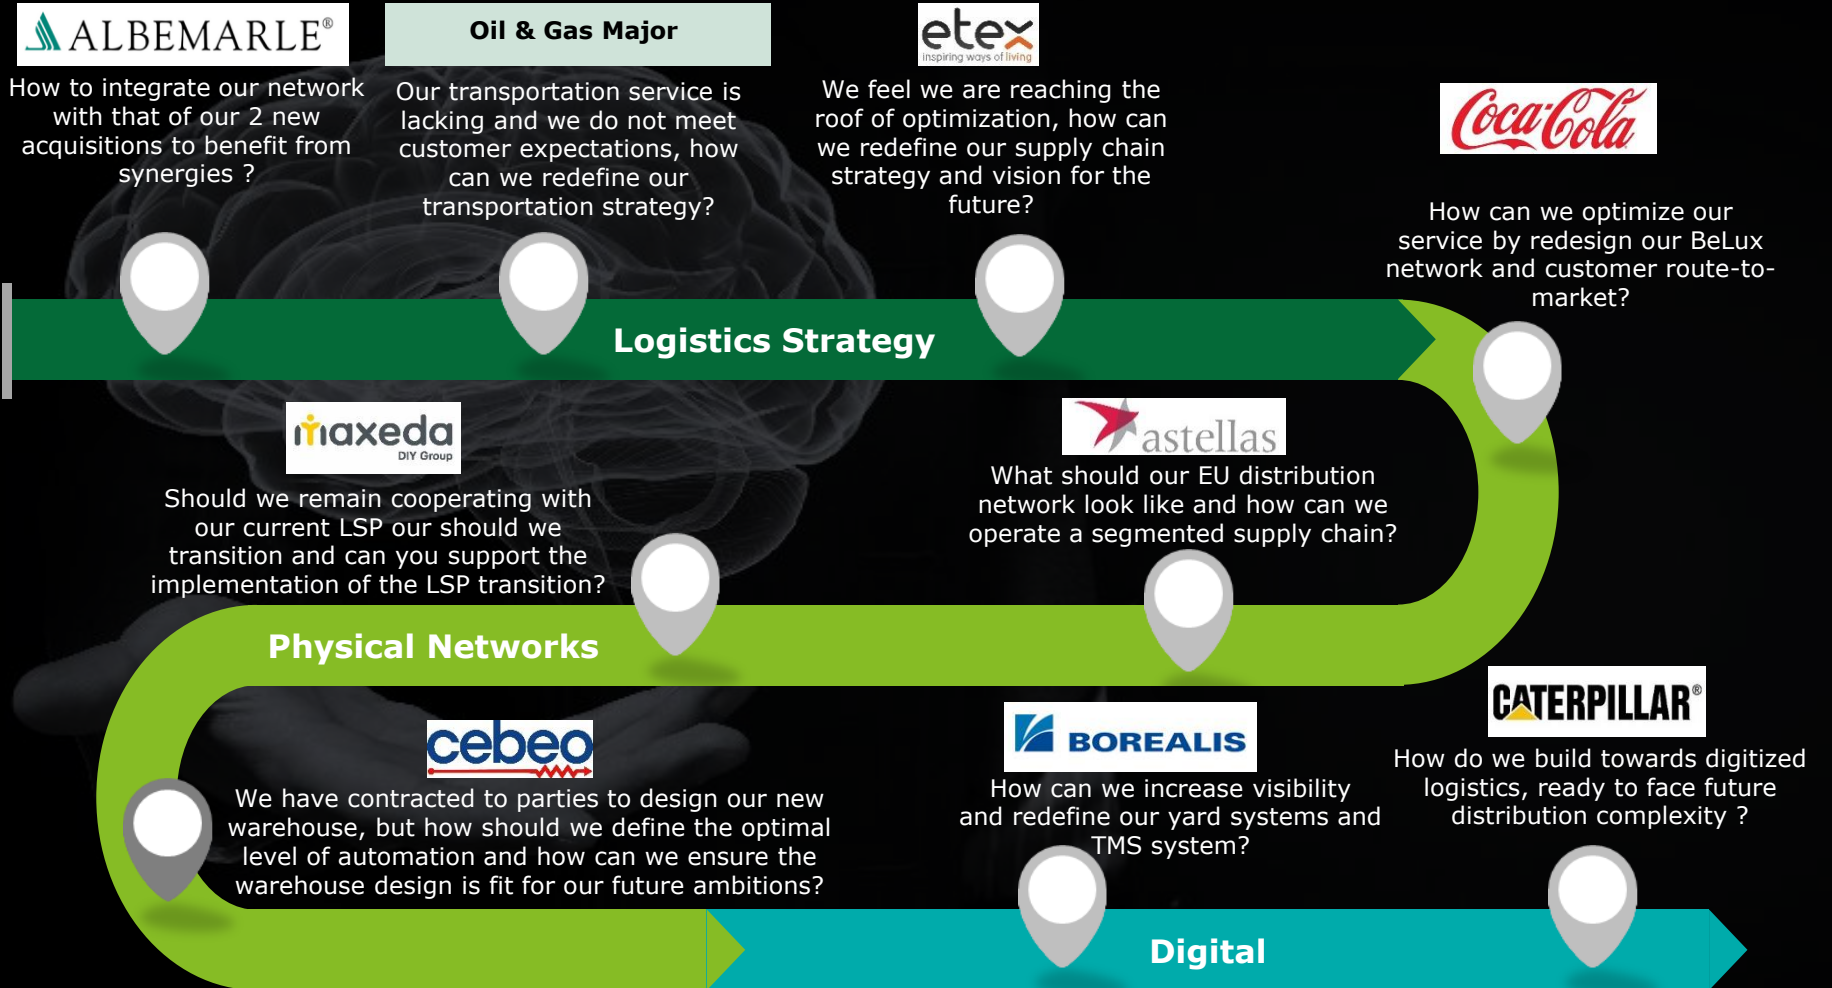

How is Deloitte helping its clients to handle complexity, embrace digital opportunities and achieve future objectives?

What are key success factors that Deloitte is using to deliver project successfully?

Our team combines the best of both worlds: deep analysis skills, industry best practices and in-depth expertise versus collaboration, creativity and the ability to engage:

- Emerging trends in the logistics & distribution spectrum
- Examples of client projects
- Introduction to Deloitte & references**
- Contact

- A **multidisciplinary team** with extensive **experience** in different Supply Chain areas combined with experts from our Tax, Legal, and Technology practices
- Ability to **mobilize** various **subject matter experts** besides SC experience such as Tax, Digital, Technology, etc.
- Able to **operationally implement** defined Supply Chain vision
- **Structured approach** knowing how to prioritize and manage a project in order to ensure success

- Experienced team that **works collaboratively** with you and who are able to **challenge** based on their experience to **drive** ambitious yet realistic **targets**
- Broad array of **inspiring interventions** from the Deloitte workshops environment that stimulate a **think-out-of-the-box** environment, enabling participants to think from narrow (obvious) to broad (unexplored)
- **Facilitation skills and tools** that simulate collaborative thinking and accelerated idea generation and prioritization

Paul Delesalle

EMEA Supply Chain Leader
BE Supply Chain & Operations Service Line Leader

E-mail pdelesalle@deloitte.com
Phone +32 476 495 008

Bio summary

Paul is Partner at Deloitte (based in Brussels, Belgium) having served clients mainly in Oil & Gas, Chemicals, Manufacturing and Life Sciences industries.

Paul is 16+ years active in supply chain consulting. He is leading the Supply Chain & Operations service line in EMEA as part of Deloitte's global supply chain practice. Paul assists clients in organizing and managing their end-to-end supply chains to optimize profit, cost, reliability and customer satisfaction – leveraging supply chain as a source of competitive advantage.

Over the last years, Paul's focus has been on program management and Business Transformations, mainly in the areas of Supply Chain and Procurement.

Project experiences

- EMEA lead on a Supply Chain Transformation with focus on supply chain planning, logistics & distribution, cost-to-serve
- Transportation Strategy definition and sourcing in automotive
- Program Manager (80 FTE) of a Business Transformation supported by implementation of SAP (61 sites, 2000 end users), scope: finance, controlling, logistics, warehousing, procurement, investment
- Project Manager for an innovative tax-aligned supply chain project in the e-commerce area, enabling cross-continental parcel traffic
- Working Capital / Production Planning improvement projects
- Procurement Lead for a European Procurement Transformation implementing standardized P2P-processes and setup of an AP SSC

Kevin Overdulve

BE Logistics & Distribution Leader
BE Consumer Products & Retail Supply Chain Leader
Part of EMEA L&D Leadership

E-mail koverdulve@deloitte.com
Phone +32 479 910 228

Bio summary

Kevin is a Director within the Supply Chain & Operations practice of Deloitte, based in Brussels, and a leader within Deloitte's European Logistics & Distribution (L&D) practice.

He has over 10 years of experience in the L&D space, advising clients on their strategic, tactical and operational questions. He has been involved in network redesign engagements, transport & warehouse (process) optimizations, tendering and transition programs, inventory planning, and reverse logistics. He works across industries, with solid experience in consumer goods as well as production environments (chemicals, pharmaceuticals, manufacturing, automotive).

Project experiences

- Global aftersales network design and inter-continental flow optimization project for a leading automotive (OEM) alliance
- Supply chain network design for a FMCG producer in view of the separation of their 2 business segments
- Redesign of the European parcel distribution network (transport, fulfilment, inventory) of a fast growing food distributor
- Warehouse Optimization & Transition program in a complex DIY retailing environment, including process design and go-live support
- European Supply chain network study for major Technology distributor
- Distribution Network Integration after major acquisition in the specialty chemicals industry
- Global supply chain transformation with a focus on warehousing & transportation (business case and process design) at chemical major

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee (“DTTL”), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. DTTL (also referred to as “Deloitte Global”) does not provide services to clients. Please see www.deloitte.nl/about for a more detailed description of DTTL and its member firms.

Deloitte provides audit, consulting, financial advisory, risk management, tax and related services to public and private clients spanning multiple industries. Deloitte serves four out of five Fortune Global 500® companies through a globally connected network of member firms in more than 150 countries bringing world-class capabilities, insights, and high-quality service to address clients’ most complex business challenges. To learn more about how Deloitte’s approximately 225,000 professionals make an impact that matters, please connect with us on Facebook, LinkedIn, or Twitter.

This communication contains general information only, and none of Deloitte Touche Tohmatsu Limited, its member firms, or their related entities (collectively, the “Deloitte Network”) is, by means of this communication, rendering professional advice or services.
