Deloitte names the 50 fastest growing Belgian technology companies and nominates 10 Rising Star finalists

Fourth annual Technology Fast 50 and Rising Star companies are a testament to the influence of the Belgian start-up scene

Brussels, 24 October 2017. Deloitte Belgium today released its Technology Fast 50, the list of the fifty fastest-growing technology companies in Belgium. In addition, Deloitte named the ten finalists for its Rising Star competition, recognising promising companies that have been active in the technology sector for less than four years. The Technology Fast 50 award will be given to the country's fastest-growing technology company based on its percentage of growth in turnover during the last four years. The winner will be announced at the Fast 50 Awards Ceremony which will be held on 14 November 2017 at the Egg in Brussels.

Public or private companies headquartered in Belgium that develop a technology-related product or service and that have experienced substantial revenue growth over the last four years were invited to register for the Fast 50 competition for their chance to be nominated as one of the country's 50 fastest-growing technology companies.
