Our methodology:
The 2022 Gen Z and Millennial Survey solicited the views of 14,808 Gen Zs and 8,412 millennials (23,220 respondents in total), from 46 countries across North America, Latin America, Western Europe, Eastern Europe, the Middle East, Africa and Asia Pacific. Fieldwork was completed between 24 November 2021 and 4 January 2022.

As defined in the study, Gen Z respondents were born between January 1995 and December 2003, and millennial respondents were born between January 1983 and December 1994.

Key global findings:
Gen Zs and millennials feel deeply concerned about the state of the world and their own futures. They are reassessing their priorities in the wake of ongoing crises, and actively trying to balance the challenges of their everyday lives with their desire to drive societal change.

Cost of living is the top concern among Gen Zs and millennials. Many live paycheck to paycheck and are not confident they will be able to retire comfortably. To make ends meet, more than four in 10 Gen Zs and a third of millennials have a part- or full-time side job, in addition to their primary job. At a broader societal level, Gen Zs and millennials are deeply concerned about wealth inequality and not optimistic that the economic situations in their countries will improve.

The Great Resignation signals a breaking point in response to ongoing dissatisfaction, increasing distrust in business, and shocking events, like the pandemic, that have made many reassess what’s important to them. Employers now have a need, and an opportunity, to drive the sustained workplace changes that Gen Zs and millennials have long been asking for. Compensation, better work/life balance, and more learning and development opportunities are at the top of the list.

Flexible work is a priority. The majority of Gen Zs (75%) and millennials (76%) prefer hybrid work or to work remotely, but less than half currently have the option to do so. They value flexible work because it helps them save money, frees up time to do other things they care about, and allows them to spend more time with family. However, employers have work to do to ensure that hybrid/flexible work arrangements are equitable.

Gen Zs and millennials believe that the world is at a tipping point in responding to climate change. Almost all of Gen Zs and millennials (90%) are making efforts to reduce their personal environmental impact. Near term, their actions are focused on small everyday actions; longer term, they see themselves increasing their civic engagement and bringing sustainability into their large purchases, even if it may cost more upfront. They are also pushing their employers to take action against climate change. However, only 18% of Gen Zs and 16% of millennials believe employers are strongly committed. They are even less optimistic about their governments’ commitment to drive change.

Stress and burnout levels are high. Nearly half of Gen Zs say they feel stressed all or most of the time. Millennial stress levels are also high but are down slightly from last year. Meanwhile, more than half of all respondents say they feel burned out from the pressure of their workloads. Employers are seen to be making an effort to address workplace mental health issues – more than half of respondents say their employer is more focused on workplace well-being and mental health since the start of the pandemic. However, many do not believe the increased focus has resulted in any meaningful impact on employees.

The following deck examines how Brazil’s Gen Zs and millennials stand out from their global counterparts on these key themes.
801 total respondents in Brazil: 500 Gen Zs and 301 millennials

### Economic and political outlook

- Compared to last year, Gen Zs and millennials in Brazil are more optimistic about the economic and sociopolitical situations improving in the next 12 months. They are also much more optimistic than the global averages.

*Not asked in China*
• Gen Zs and millennials in Brazil are much more likely to think business has a positive societal impact compared to their global counterparts. However, similar to the global averages, this sentiment has been declining slowly over the years.

Percentage of respondents who think businesses have a very/fairly positive impact on society:
Top concerns

- Gen Zs and millennials are concerned about unemployment and crime/personal safety. Cost of living, the No. 1 concern globally, comes in as their third top concern.

### Top five issues of greatest concern:

#### Brazil Gen Zs
- Unemployment: 33%
- Crime/personal safety: 24%
- Cost of living: 23%
- Climate change/protecting the environment: 22%
- Sexual harassment: 21%

#### Global Gen Zs
- Cost of living: 29%
- Climate change/the environment: 24%
- Unemployment: 20%
- Mental health of my generation: 19%
- Sexual harassment: 17%

#### Brazil millennials
- Unemployment: 31%
- Crime/personal safety: 27%
- Cost of living: 25%
- Income inequality/distribution of wealth: 24%
- Climate change/protecting the environment: 19%

#### Global millennials
- Cost of living: 36%
- Climate change/protecting the environment: 25%
- Health care/disease prevention: 21%
- Unemployment: 20%
- Crime/personal safety: 18%
Financial concerns and the prevalence of side jobs

Those who strongly/tend to agree with the following statements:

- I feel financially secure
  - Brazil Gen Zs: 40%
  - Global Gen Zs: 40%
  - Brazil millennials: 55%
  - Global millennials: 46%

- I am confident I will be able to retire with financial comfort
  - Brazil Gen Zs: 39%
  - Global Gen Zs: 41%
  - Brazil millennials: 53%
  - Global millennials: 41%

- I can comfortably pay all of my living expenses each month
  - Brazil Gen Zs: 47%
  - Global Gen Zs: 47%
  - Brazil millennials: 63%
  - Global millennials: 55%

- I live paycheck to paycheck and worry that I won’t be able to cover my expenses
  - Brazil Gen Zs: 56%
  - Global Gen Zs: 46%
  - Brazil millennials: 57%
  - Global millennials: 47%

Millennials in Brazil are more likely than the global average to feel financially secure and confident they’ll be able to retire comfortably. Gen Zs in Brazil are more closely aligned with the global average. Both generations are more likely to live paycheck to paycheck than the global averages.

Many are taking on side jobs. Those who have taken on either a part- or full-time paying job in addition to their primary job*:

- Selling products or services through online platforms (21% of Gen Zs and 26% of millennials)
- Social media influencer (18% of Gen Zs and 18% of millennials)
- Working for a not-for-profit organization (18% of Gen Zs and 22% of millennials)
- Child/pet care (13% of Gen Zs and 5% of millennials)
- Consulting/running your own business (11% of Gen Zs and 26% of millennials)

Brazil Gen Zs: 39% vs. 43% globally
Brazil millennials: 38% vs. 32% globally

Top side jobs held in Brazil:

- Selling products or services through online platforms (21% of Gen Zs and 26% of millennials)
- Social media influencer (18% of Gen Zs and 18% of millennials)
- Working for a not-for-profit organization (18% of Gen Zs and 22% of millennials)
- Child/pet care (13% of Gen Zs and 5% of millennials)
- Consulting/running your own business (11% of Gen Zs and 26% of millennials)

*Caution, small base Gen Z (46) and millennials (44)
Those who would like to stay in their jobs beyond five years or leave within two:

<table>
<thead>
<tr>
<th>Brazil Gen Zs</th>
<th>Brazil millennials</th>
</tr>
</thead>
<tbody>
<tr>
<td>2021</td>
<td>2022</td>
</tr>
<tr>
<td>Stay beyond 5 years</td>
<td>22% ↑ 30%</td>
</tr>
<tr>
<td>Leave within 2 years</td>
<td>49% ↓ 36%</td>
</tr>
</tbody>
</table>

Top reasons Gen Zs and millennials left their organizations**:

- Pay wasn't high enough (28% Brazil Gen Zs, 17% Brazil millennials)
- Lack of learning and skills development opportunities (16% Brazil Gen Zs, 10% Brazil millennials)
- I was feeling burned out (15% Brazil Gen Zs, 20% Brazil millennials)
- I felt the job/workplace was detrimental to my mental health (14% Brazil Gen Zs, 18% Brazil millennials)
- I didn’t feel valued or that my contributions mattered (14% Brazil Gen Zs, 13% Brazil millennials)

Among the respondents who would like to leave their jobs within two years, the following would do so without another job lined up*:

- Brazil Gen Zs: 34%
- Brazil millennials: 44%

Top reasons Gen Zs and millennials choose to work for an organization:

- Learning and development opportunities (41% Brazil Gen Zs, 34% Brazil millennials)
- Good work/life balance (38% Brazil Gen Zs, 34% Brazil millennials)
- Opportunities to progress/grow in my career (31% Brazil Gen Zs, 31% Brazil millennials)
- Quality of its products/services (22% Brazil Gen Zs, 25% Brazil millennials)
- High salary or other financial benefits (20% Brazil Gen Zs, 19% Brazil millennials)

*Caution, small base millennials (37)
**Caution, small base millennials (26)
As seen globally, while many currently work in an office, the majority would prefer a hybrid work arrangement.

Current working patterns:

- Brazil Gen Zs: 21% always work remotely, 24% have a hybrid work arrangement, 51% always work in the office, 3% don't know/not sure.
- Brazil millennials: 21% always work remotely, 29% have a hybrid work arrangement, 48% always work in the office, 2% don't know/not sure.

Preferred working patterns:

- Brazil Gen Zs: 11% always work remotely, 65% have a hybrid work arrangement, 19% always work in the office, 6% don't know/not sure.
- Brazil millennials: 17% always work remotely, 63% have a hybrid work arrangement, 17% always work in the office, 3% don't know/not sure.

*As defined here, hybrid work arrangements include any combination of remote and in-office work, whether it be splitting time 50/50, working mostly remotely with occasional office time, or vice versa.
Top 5 impacts of remote work for Gen Zs in Brazil:

- It allows me to see my family more often: 46%
- It frees up my time to do other things that I care about: 44%
- It has helped me save money: 40%
- It makes getting my work done each day easier: 35%
- It positively impacts my mental health: 34%

Top 5 impacts of remote work for millennials in Brazil:

- It frees up my time to do other things that I care about: 57%
- It has helped me save money: 52%
- It allows me to see my family more often: 51%
- It positively impacts my mental health: 41%
- It makes getting my work done each day easier: 32%

Those who have had the opportunity to work remotely cite benefits such as allowing them to see their family more often, freeing up time to do other things they care about, and helping them save money.
If Gen Zs in Brazil were in charge, they’d prioritize the following initiatives to improve work/life balance:

- Foster supportive leaders through mental health-related training: 18%
- Allow employees to work flexible working hours: 18%
- Allow employees to work remotely if they wish: 16%
- Experiment with reduced working weeks: 11%
- Create more part-time jobs: 10%

If millennials in Brazil were in charge, they’d prioritize the following initiatives to improve work/life balance:

- Allow employees to work remotely if they wish: 19%
- Allow employees to work flexible working hours: 18%
- Experiment with reduced working weeks: 13%
- Foster supportive leaders through mental health-related training: 12%
- Create more part-time jobs: 11%

Gen Zs and millennials see flexible work as an opportunity to improve work/life balance.
The world is at a tipping point when responding to climate change, and the future can go either way (strongly agree or tend to agree):

- Gen Zs and millennials in Brazil are even more likely than the global average to say we have reached a tipping point on climate change. They are also much more likely to have experienced a severe weather event in the last year.
Almost all respondents in Brazil are taking actions to reduce their environmental impact. Most do not think large businesses, or the government is doing enough to address climate change, although millennials are slightly more likely to believe that business and government is highly committed.
Percentage who strongly/tend to agree that they and their colleagues have put pressure on their employer to take action on climate change:

- **Environment: What they’d like their employers to do**

  - Of Gen Zs in Brazil:
    - 48% vs. 48% of Gen Zs globally
  - Of millennials in Brazil:
    - 57% vs. 43% of millennials globally

Ranking of where employed Gen Zs and millennials in Brazil feel their organizations should invest more resources to help combat climate change:

- Providing training for employees on how they can make a positive impact on the environment in everyday activities (17% of Gen Zs and 13% of millennials)
- Ban on single-use plastic products at work/office locations (16% of Gen Zs and 16% of millennials)
- Commitment to being net-zero greenhouse gas emissions within the next decade (15% of Gen Zs and 14% of millennials)
- Providing employees incentives to make better environmental choices (13% of Gen Zs and 17% of millennials)
- Renovating office locations to be greener (13% of Gen Zs and 9% of millennials)

- Compared to Gen Zs, millennials in Brazil are more likely to have put pressure on their employer to address climate change; the reverse is true globally.
- Respondents want to see their employers invest in training to help employees protect the environment in their everyday lives, banning single-use plastics, and a commitment to being net-zero greenhouse gas emissions.
Stress levels are high, particularly among Gen Zs

• Stress and anxiety levels are up slightly for Gen Zs in Brazil, but down for millennials, which follows the global trend.
• Finances and concerns about mental health are top stress drivers.

Percentage of respondents who say they feel anxious or stressed all or most of the time:

- **Brazil Gen Zs**: 56% (+2 from 2021)
- **Global Gen Zs**: 46% (No change from 2021)
- **Brazil millennials**: 47% (-5 from 2021)
- **Global millennials**: 38% (-3 from 2021)

Percentage of respondents who say the following contribute a lot to their feelings of anxiety or stress:*

- **My Longer-term Financial Future**: Brazil Gen Zs - 47%, Global Gen Zs - 50%, Brazil millennials - 43%
- **My Day-to-day Finances**: Brazil Gen Zs - 47%, Global Gen Zs - 46%, Brazil millennials - 39%
- **Concerns About My Mental Health**: Brazil Gen Zs - 53%, Global Gen Zs - 39%, Brazil millennials - 47%
- **Family/personal Relationships**: Brazil Gen Zs - 30%, Global Gen Zs - 34%, Brazil millennials - 31%
- **My Job/workload**: Brazil Gen Zs - 35%, Global Gen Zs - 34%, Brazil millennials - 26%

*Asked only of those who feel anxious or stressed.
Burnout and efforts to improve workplace mental health

- Burnout levels are significantly higher in Brazil, and many say that people have recently left their organizations due to the pressure of their workloads.
- Roughly two-thirds believe that their employers are now more focused on workplace mental health, but more than half do not believe this has resulted in any meaningful impact on employees.

### Percentage who feel burned out due to the intensity/demands of their workloads (strongly/somewhat agree):

</table>
Roughly three in 10 Gen Zs and millennials do not feel comfortable speaking to their managers about stress or other mental health issues. About a quarter have taken time off of work due to stress, but more than half did not tell their employer the reason.

Perhaps encouragingly, millennials are slightly more likely this year to feel comfortable telling their employer when they needed time off due to stress or mental health reasons.

Percentage who would not feel comfortable speaking openly with their direct manager about feeling stressed or anxious, or about other mental health challenges:

- 31% of Gen Zs in Brazil
- 26% of millennials in Brazil

Percentage who have taken time off work due to feelings of stress or anxiety:

- 24% of Gen Zs in Brazil
- 25% of millennials in Brazil

Among those who took time off work due to stress or anxiety, they gave their employers the following reason for their absence*:

**Brazil Gen Zs**
- Told them it was due to anxiety/stress: 53% in 2021, 53% in 2022
- Gave a different reason: 39% in 2021, 37% in 2022
- Prefer not to say/don’t know: 8% in 2021, 10% in 2022

**Brazil millennials**
- Told them it was due to anxiety/stress: 67% in 2021, 70% in 2022
- Gave a different reason: 27% in 2021, 22% in 2022
- Prefer not to say/don’t know: 7% in 2021, 8% in 2022

*Caution, small base Gen Z (39) millennials (39)
The Millz Mood Monitor gauges the mood of respondents and provides an annual snapshot of Gen Zs’ and millennials’ optimism that the world and their places in it will improve.

*Scores are based on responses to questions on the following five topics and are aggregated to create a measure between zero (absolute pessimism) and a hundred (complete optimism).
