The Swiss CFO Programme helps CFOs to stay ahead of increasingly complex demands through unique opportunities to draw on the experience of Deloitte leaders, subject-matter specialists, CFO peers, and board members. The CFO Programme harnesses our organisation’s broad capabilities to offer forward-thinking insights for every stage of the CFO career, helping new and experienced CFOs manage the complexities of the role, tackle their companies’ most compelling challenges, and adapt to business and market shifts.

The CFO Programme was developed to offer CFOs and aspiring CFOs a trusted, valued, and comprehensive “go-to” resource for personal career development and success as the CFO role evolves to address new demands.

CFO Programme mission

- **Inform**: Provide comprehensive, CFO focused insights to help CFOs achieve business career goals.
- **Develop**: Help CFOs nurture talent and prepare promising leaders for increasing levels of responsibility.
- **Connect**: Connect CFOs with peers and leaders in and outside of the CFO community.
Our Next Generation CFO Academy is a unique, often career-changing experience that helps prepare promising finance executives for a future CFO role. Attendees are nominated by their organisation’s current CFO with the goal of developing leadership potential in rising finance professionals. The Academy provides a highly experiential curriculum and unparalleled networking opportunities. Sessions are held annually at the hotel Bocken in Horgen, near Zurich, Switzerland.

Preparing future CFOs
Today’s CFOs serve in a far greater capacity than the support role they once did. Finance permeates every aspect of businesses, and CFOs are key decision-makers, leaders in their organisations who are held to high standards—and are expected to set high standards.

For new CFOs to take the reins successfully on day one, early preparation is essential.

“I am glad I had the opportunity to participate in this programme. The quality of the presentations and speaker engagement with the audience was excellent and exceeded my expectations.”

Build new relationships and skills for success
The Academy experience is framed around three pillars of CFO success: leadership, influence, and competence. Delivered over three days, the Academy curriculum is both intense and thorough. It provides executives with an opportunity for preparation, self-reflection, and hands-on scenario planning related to key aspects of the CFO agenda.

The faculty is uniquely positioned to deliver this curriculum. It consists of C-suite executives, analysts, authors, university professors, attorneys, and senior Deloitte Switzerland partners.

A network beyond the Academy
The Academy provides participants with an opportunity to build meaningful relationships with peers from similar organisations across industries and geographies. Each cohort has the opportunity to meet again at an alumni get-together which takes place once a year in Switzerland. By invitation only.

The agenda focuses on the three most important resources CFOs should consider managing during their transitions: personal and organisational time management, talent in the finance organisation, and critical stakeholder relations.

The CFO Transition Lab helps CFOs as they create a tangible 180-day work plan with four work streams:
1. Define and communicate priorities
2. Assess and develop a talent strategy
3. Understand and influence specific stakeholders
4. Frame tangible actions to execute priorities

Plan ahead: What CFOs can explore in the Lab

- **Hopes, fears, and legacies**: Define a “north star” and consider other stakeholder’s input (CEO etc.)
- **Organisation strengths**: Evaluate the finance organisation’s current versus desired strength in key areas
- **Priorities**: Use Deloitte’s Four Faces of the CFO framework to identify priorities and classify the urgency and importance of each
- **Communication strategies**: Develop language to communicate strategic priorities to stakeholders
- **Confidence**: Assess the preparedness of the finance organisation to execute top priorities and identify ways to increase confidence in outcomes
- **Talent**: Examine capabilities and bandwidth of direct reports, as well as the scope and efficacy of reporting relationships
- **Relationships**: Focus on the strengths of key relationships and influence strategies needed to achieve priorities
- **180-day plan**: Create action plans with specific milestones
