Deloitte.

The KYC Utility: Due Diligence Module

The Deloitte-engineered AML/KYC solution compiles comprehensive data pools in order to generate reliable and efficient risk assessments for your client relationships, fulfilling all regulatory requirements and enabling new lead generation.

The RegTech solution that provides real added value

Focus your core business - Increase time for client and market development activities

- · Perform smart plausibility checks and enhance client experience with shortened "time-to-yes"
- Increase work efficiency and free up sales force time for new business development and market initiatives
- · Detect new data-induced opportunities, thereby generating additional leads

Identify your "A" clients - Manage your client portfolio based on true business opportunities

- Collect, track and update relevant information and gain advanced insights into your client relationships in order to identify priority clients
- · Drive business opportunities systematically by using the most up-to-date and accurate information

Automate your value creation - Ensure seamless and efficient workflow processing

- · Accelerate your day-to-day work through standardised, rule-based workflow processing
- · Significantly reduce your time spent while enhancing the quality of your work

Digitalise your way of working - Manage regulatory complexity with the Deloitte standard approach

- Transform reactive into preventive mitigation measures
- Establish end-to-end transparency on internal rules
- Use standardised procedures to help users produce highly consistent work
- Gain access to a proven approach and the latest regulatory updates

Deloitte.

What makes us unique

Plug and play

- Easy to deploy solution, including updates, preconfigured third-party capabilities and data sources
- Standalone versions ready to use without further integration

24/7

- Receive timely notification of important new information
- Gain a competitive advantage by acting before your competitors
- Proactive and early management of risk exposure

Regulatory tracking

- Receive our regulatory and technical updates
- Discussions on implications resulting from jurisdiction-specific regulatory changes
- Regulatory highlights provided in a periodic newsletter

360 ° client view

- Understand your client, including beneficial owners
- Insights into the underlying source of wealth and personal networks
- Consistent data sets for all clients
