

Figure 2: The Value Based Care (VBC) journey

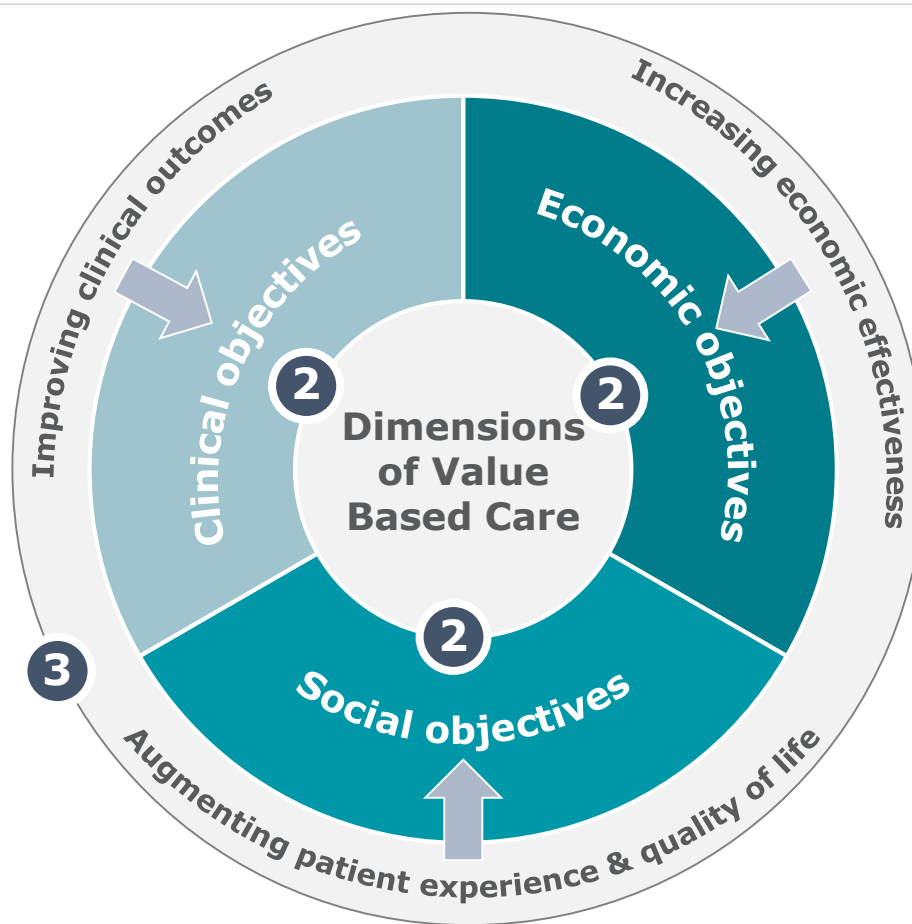

Action steps

Description

1 Lay the foundation for introducing VBC initiatives

- Joint stakeholder objectives, shared vision and transparent collaboration
- Consideration of all dimensions of VBC before the introduction of value-based procurement in an organisation

2 Agree on objectives for all three dimensions of VBC

3 Define activities to operationalise the objectives of VBC

4 Design catalysts to enable transition to VBC

- Innovative technologies (health IT, patient services & solution innovation)
- Public policy incentives
- Required real world evidence tracking and reporting systems

Value Based Care Journey
