

Enterprise Asset Management

EAM Excellence

Enables the full potential of your assets

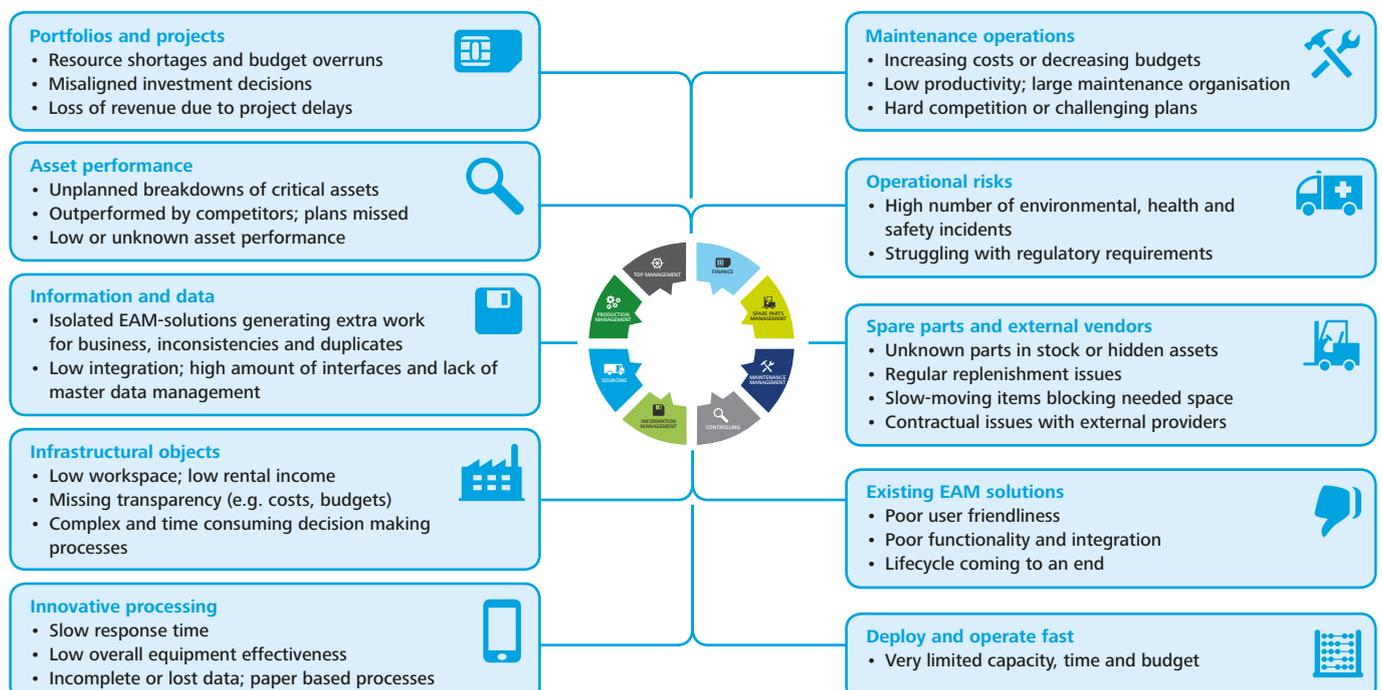

Enterprise Asset Management (EAM) covers the full lifecycle of your asset based operations

The purpose of **EAM Excellence** is to evaluate and improve your asset based operations to achieve **Operational Excellence**.

Enterprise Asset Management addresses the following business challenges and issues

Our Deloitte experts will add value to your existing **EAM** concepts and solutions.

1 >

EAM Quick Scan
Understand the customers, their individual needs and level of maturity. Help customers to identify and describe their business issues across various levels (strategic, tactical and operative), starting with a SWOT-analysis.

2 >

EAM Excellence Initiatives
Uses the EAM Excellence approach to define the requirements and benefits to the customer. Delivers a high quality service, supporting our clients through a distinctive experience.

3 >

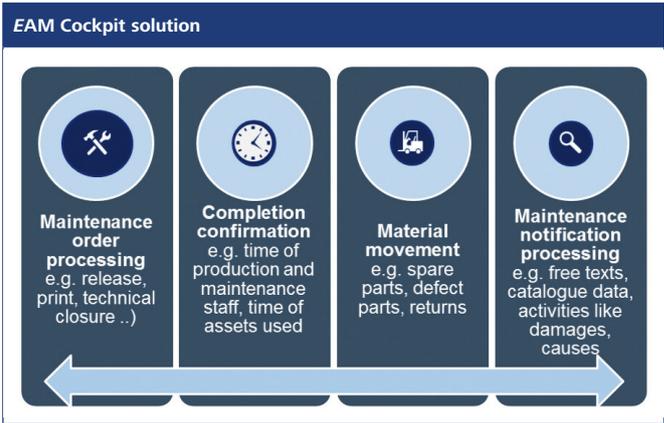

EAM Packaged Services
We deliver integrated services that advise on Strategy, Operations, Risk, Change Management and Analytics – All combined with our knowledge and experience in Enterprise Applications.

Our EAM solutions
