

## International Tax Malaysia Highlights 2017

### Investment basics:

**Currency** – Malaysian Ringgit (MYR)

**Foreign exchange control** – Malaysia maintains a system of exchange controls that is subject to foreign exchange administration rules issued by its central bank. The repatriation of capital, profits, dividends, royalties, rents and commissions is freely permitted.

**Accounting principles/financial statements** – MFRS is mandatory for nonprivate entities, with the exception of certain entities that are permitted to apply the Financial Reporting Standards (FRS) framework as an alternative. A nonprivate entity that has chosen to apply FRS will have to comply with MFRS for annual periods beginning on or after 1 January 2018.

Malaysian Private Entities Reporting Standards (MPERS) apply for private entities (effective for financial statements beginning on or after 1 January 2016). Private entities may opt to adopt MFRS in its entirety; a private entity that has, in the alternative, applied FRS as its financial reporting framework will have to apply either MFRS or the MPERS for annual periods beginning on or after 1 January 2018.

**Principal business entities** – These are the public and private limited company, business trust, limited liability partnership, partnership, sole proprietorship and branch of a foreign corporation.

### Corporate taxation:

**Residence** – A corporation is resident in Malaysia if its management and control are exercised in Malaysia.

**Basis** – Corporations are taxed on income derived from Malaysia. Foreign-source income is exempt unless the corporation is carrying on a business in the banking, insurance, air transport or shipping sectors.

**Taxable income** – Taxable income comprises all earnings derived from Malaysia, including gains or profits from a trade or business, dividends, interest, rents, royalties, premiums or other earnings.

**Taxation of dividends** – All corporations in Malaysia are required to adopt the single-tier system (STS). Dividends paid by companies under the STS are not taxable.

**Capital gains** – Capital gains are not taxed in Malaysia, except for gains derived from the disposal of real property or on the sale of shares in a real property company. The rate is 30% for such disposals of property made within three years after the date of acquisition. The rates are 20% and 15% for disposals in the fourth and fifth years after acquisition, respectively, and 5% for disposals in the sixth year after acquisition and thereafter.

**Losses** – Losses may be carried forward indefinitely (except where there is a substantial change in corporate ownership of a dormant company). The carryback of losses is not permitted.

**Rate** – The standard corporate tax rate is 24%, while the rate for resident small and medium-sized companies (i.e. companies incorporated in Malaysia with paid-up capital of MYR 2.5 million or less and that are not part of a group containing a company exceeding this capitalization threshold) is 18% on the first MYR 500,000 with effect from year of assessment (YA) 2017, with the balance being taxed at the 24% rate. For YA 2017 and YA 2018, companies will be eligible for a reduction of between 1% and 4% on the standard tax rate for a portion of their income if there is an increase of 5% or more in the company's chargeable income, compared to the immediately preceding YA. The reduction in the tax rate will apply to the portion of chargeable income representing the increase.

**Surtax – No**

**Alternative minimum tax –** A Labuan company carrying on a Labuan business activity may elect to pay a fixed amount of MYR 20,000, or to be taxed at 3% of the audited accounting profit.

**Foreign tax credit –** Foreign tax paid may be credited against Malaysian tax on the same profits (limited to 50% of foreign tax in the absence of a tax treaty), but the credit is limited to the amount of Malaysian tax payable on the foreign income.

**Participation exemption –** No, but foreign-source income is not taxable and domestic dividends are tax-exempt.

**Holding company regime –** An investment holding company (IHC) is a company whose activities consist mainly of the holding of investments and that derives no less than 80% of its gross income (other than gross income from a source consisting of a business of holding of an investment) from such investments. Generally, only expenses falling within the definition of “permitted expenses” in the tax legislation qualify for a tax deduction in respect of an IHC.

**Incentives –** A wide range of incentives are available for certain industries, such as manufacturing, information technology services, biotechnology, Islamic finance, energy conservation and environmental protection. Incentives include tax holidays of up to 10 years (pioneer status); investment tax allowances (i.e. a 60% to 100% allowance on capital investments made up to 10 years); accelerated capital allowances; double deductions; and reinvestment allowances (i.e. a 60% allowance on capital investments made in connection with qualifying projects).

**Withholding tax:**

**Dividends –** Malaysia does not levy withholding tax on dividends.

**Interest –** A withholding tax of 15% applies to interest paid to a nonresident, unless the rate is reduced under a tax treaty. However, interest paid to a nonresident by a bank operating in Malaysia is exempt from tax, except for interest accruing to the nonresident’s place of business in Malaysia and interest paid on funds required to maintain “net working funds,” as prescribed by the central bank. Certain other interest paid to a nonresident also may be exempt.

**Royalties –** A withholding tax of 10% applies to royalties paid to a nonresident, unless the rate is reduced under a tax treaty.
