

Deloitte Privacy Management

...move from spreadsheets to a tailor-made integrated solution to strengthen your GDPR compliance.

Deloitte Risk Advisory provides specialized Data Privacy consulting services and offers proven expertise in the implementation of Privacy Management Software.

Typical challenges you may be facing:

Record keeping – Decentralized spreadsheets and record keeping tools; lack of structure or integrated view of personal data

Security – Insufficiently secured privacy management platform and threat of data leaks

Documentation – Outdated privacy documentation and absence of a single point repository

Consent – Decentralized and inefficient consent management; general lack of control over consent

Manual work – Excessive time spent on repetitive manual tasks and administration; low efficiency and quality

Cookies – Non-transparent cookie and tracking technologies; outdated cookie-consent management and policy

Compliance – Gaps in GDPR compliance resulting in regulatory penalties and reputational damage

New technologies – Privacy rules applicable to the emerging technologies like Cloud, IoT, and AI.

How can we help?

We provide specialized **privacy solutions tailored** specifically to your requirements using the cutting-edge privacy tools. Our approach empowers you to **leverage personal data** within your systems securely, **ensuring adherence to the latest privacy regulations and industry best practices.**

Let us turn privacy into your competitive advantage!

Our Approach

We will arrange for you:

- ✓ Automated privacy management and related activities (Records of processing activities, personal data mapping, data subject rights...)
- ✓ Compliance & Risk Assessment (PIA/DPIA) and internal audit execution
- ✓ Cookie & Consent management and Privacy Policy & Notice management
- ✓ Data anonymization and deletion workflows
- ✓ Automated legislation and standard monitoring
- ✓ Solutions for compliant data governance and monetization
