

Key sustainability services

Supporting your Environmental, Social, and Governance (ESG) journey

With our comprehensive advisory services, we help clients achieve sustainability through:

Understanding the company's current ESG status → Corporate governance → Sustainability reporting → Regulatory compliance → Operational changes → Strategic planning and target setting.

Our experts work together across various disciplines to connect legal, audit, tax, financial, grant, business, and advisory services. We facilitate clients' transition towards sustainable, long-term growth.

Assurance on Non-Financial Reporting

We provide limited assurance following the GRI Guidelines, International Integrated Reporting Council guidelines, ISAE 3000, and 2014/05/EU Directive requirements.

Advisory on Non-Financial Reporting

We lead you through the non-financial reporting process according one of several reporting methods: GRI (most widely used for non-financial reporting), EU Directives, or Integrated Reporting.

Economic & Social Impact Measurement and Reporting

We measure the total direct, indirect, and induced impact of your business activities. The report provides a powerful demonstration of value added, employment, and income generated in the national economy.

Sustainability Strategy Development

We help you formulate and communicate a robust sustainability strategy that aligns with your long-term vision by reviewing your business model, strategy, and objectives and then setting KPIs, governance, and processes accordingly to boost your competitive advantage.

ESG Rating Analysis & Management

We analyze the methodologies of ESG rating agencies, identify ways to improve your score, and help you prioritize the most significant gaps.

ESG Workshop

Your team participates in an educational and inspirational session on the field of ESG, focusing on new regulatory requirements and best practices.

Stakeholder Engagement & Dialogue

We facilitate a stakeholder dialogue session according to the GRI 2016 principles or AA1000SES standard of stakeholder inclusion.

ESG Data Management

We prepare you for an upcoming ESG rating, or we analyze the rating that you were given by an ESG rating agency and help you improve your performance.

Reputation Management

We help you identify opportunities to build the company's reputation, customer trust, and loyalty as well as prevent crisis situations and make plans for effective crisis management should the need arise.

Decarbonisation

We calculate your Scope 1,2, & 3 GHG Protocol emissions and help you find a clear decarbonization pathway with defined targets and initiatives as a starting point for further strategic decisions.
