The future of health will be driven by digital transformation enabled by radically interoperable data and open, secure platforms

Always-on sensors that capture data and platforms that aggregate, store, and derive insights from individual, institutional, population, and environmental data will catalyze the transformation.

The catalyst for change: Radically interoperable data will empower hyper-engaged consumers to sustain well-being and receive care only in the instances where well-being fails.

Two jobs to be done for consumers to holistically address their health (overall state of well-being encompassing mental, social, emotional, physical, and spiritual health).

Five enablers for consumers to accomplish their jobs to be done.

Five tasks that ecosystem players will perform on behalf of consumers.

Three categories of business archetypes in the future of health environment.
