The right choice

The business world has changed and so has the type of legal support businesses require.

Globalization is driving the need for cross-jurisdictional advice. Many businesses have operations in multiple geographies and need legal advisors from a network who can deliver legal solutions reliably wherever an entity operates.

The volume, complexity and pace of regulatory changes worldwide have become an ongoing challenge. Businesses continue to focus on achieving more with fewer resources and as a result are looking to service providers to deliver greater value more efficiently.

A better choice for business

Deloitte Legal is one of only a few truly global legal service providers. We have more than 1500 legal professionals worldwide in 67 countries, comprise one of the top 5 business law practices in Continental Europe and have substantial operations elsewhere in the world.

Deloitte offers companies both legal and business support including tax, consulting, accounting, and financial advisory to enable more informed and successful implementation of business decisions.

Deloitte Legal assists organizations with both day-to-day operational needs as well as business life events. We provide pragmatic legal advice that aligns with your business objectives across four major areas of legal practice:

- Commercial Law Solutions
- Corporate and M&A Solutions
- Employment and Pensions Solutions
- Tax Controversy Solutions

Choosing an integrated service provider simplifies the management process and increases accountability across a project.

Deloitte Legal is focused on helping clients to take action today to achieve their business objectives tomorrow.

The power of global reach

Deloitte Legal approaches the delivery of legal services differently.

We operate where our clients operate. We do not use the hub and spoke approach of most traditional law firms who commonly have a centralized head office with a limited representation in other jurisdictions.

Our model is different. It is based on well-established local practices; each with a strong foundation of lawyers who both understand the local business environment and are experienced in serving multinational clients as part of a larger global client service team within one of the largest professional services networks in the world.
