

Deloitte Israel Desk

Providing a wide range of services for investors and the Israeli business community

Per capita, Israel is the leading country in patents, start-ups and venture capital activity, and has the third largest number of companies traded on US stock exchanges, after Canada and China. Israel's high-tech industry accounted for over 45% of its industrial exports, a success due to world-leading levels of investment, as percent of GDP, in research and development.

As a result of this success, Israeli companies are investing across the globe in real estate and corporates. We, the Deloitte Israel Desk, are your reliable partner for your business activities in Germany. This is particularly important in times when unforeseen events create new framework conditions, whether through regulatory adjustments or changes in legislation. ➤
