Deloitte has extensive local expertise, coupled with global reach and industry knowledge, and offers solutions for those taking advantage of what Gibraltar has to offer, as well as providing support to enable the challenges of a competitive industry and a changing regulatory environment to be met.

Audit

The audit of an insurance company is an important process for directors, shareholders and regulators and, as such, we provide a proactive, consistent and timely approach:

- We focus on early identification and resolution of issues, to avoid surprises and ensure an efficient audit and speedy reporting within strict deadlines.

- We use highly experienced and trained staff, who are locally based and accessible to you, supplemented by actuarial specialists familiar with the Gibraltar market.
- We provide valuable insights which are helpful to you.

Tax

We provide comprehensive tax advisory and compliance services to ensure you operate as efficiently as possible. Our locally based team works closely with the Deloitte global network to deliver the services and industry insight our clients expect.

Risk assessment and management

Our Enterprise Risk Services team provides a wide range of risk assessment and management services which can be tailored to your circumstances and needs. Deloitte is a leader in risk management advisory services, drawing from our vast experience in integrating bespoke risk management frameworks into a wide range of organisations, as well as our expertise in internal controls, industry and regulatory practices.

We can assist you in assessing and documenting your own risks, developing a risk framework and providing risk management strategies and solutions.

Internal audit

Unlike external auditors, internal auditors look beyond financial risks and statements to consider wider issues such as the organisation's reputation, growth, its impact on the environment and the way it treats its employees. Our internal audit approach is focused on providing world class internal audit support which is proactive in responding to changes within your organisation as well as within your industry and local environment. Our services include:

- Full internal audit outsourcing
- Internal audit co-sourcing
- Internal audit loan staffing
- Information Technology internal audit
- Internal audit effectiveness reviews
