FY2014 +6.6%

FY2013 +8.5%

FY2012 +4.85%

All figures are aggregated across DTTL and its member firms. This data includes 34 member firms and DTTL representing 95% of the global workforce. These figures represent a lower bound for measures of societal contributions as not all types of donations can be tracked in our systems. Because of rounding, numbers may not tally with the total.

DTTL and its member firms observe standards from the Committee Encouraging Corporate Philanthropy and the London Benchmarking Group. The monetary value of community activities was estimated according to the type of service performed. The value of volunteer work was based on local member firms' staff costs. Pro bono work, defined as work that the member firms have delivered to not-for-profit organizations free-of-charge or at a significantly reduced rate, has been valued at fair market rates representative of the local member firms' client service rates for comparable services.

*Includes monetary and in-kind donations from member firms and foundations.

**Includes member firm partner and employee donations to member firm supported organizations.

***Includes member firm/foundation costs for managing societal impact programs.
