Organization, talent, and operating model design

Change management and communication

Our agile and DevOps delivery capabilities

We do not just preach agile and DevOps, we deliver.

We not only help clients transform, we also help clients deliver. Through our diverse technology implementation practices, we can apply agile and DevOps to meet delivery goals no matter how big or small. Across our global member firms, our delivery practices are 26,000 professionals strong, regularly implement \$10-50 million programs using agile, and are industry leaders across a range of strategic technologies.

Right-speed IT strategy enablement:

Deloitte can help transform business and technology organizations to achieve faster and higher quality delivery. We focus on supporting the right-speed by customizing agile IT to fit your organization, while shifting cultures and mindsets to balance the big picture with iterative detailing. Our services include the following:

- Agile IT operating model design
- Product0centric organizational model
- Enterprise agile transformation
- Lean startup based innovation

SAFe and agile at scale / Enterprise agile:

Deloitte is a Scaled Agile Gold Partner and helps you leverage SAFe to solve the challenges of adopting agility at scale. Our services include the following:

- SAFe transformation
- Enterprise agile strategy and design
- Tailored agile training and coaching

DevOps enablement:

Deloitte helps you achieve enterprise agility by tailoring a DevOps approach for accelerated delivery through the optimization of the following tools, processes, and architecture:

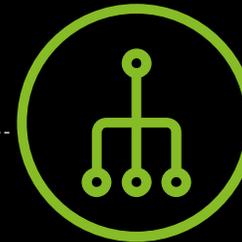

- DevOps strategy, architecture, and cloud integration
- DevOps transformation and engineering implementation
- DevOps tool chain configuration and deployment

Agile program stand-up and APMO:

Deloitte can help you coordinate, learn, collaborate and deliver at enterprise scale. We create a vision and a product / program roadmap for agile teams to deliver, establishing the right governance structure, which includes the following:

- Agile program definition and stand-up
- End-to-end agile program management

Technology solutions:

From strategy to implementation, Deloitte delivery solutions span the agility spectrum to help you drive transformation, improve productivity, and streamline business operations. Our practical, innovative solutions are linked to measurable goals to help achieve a competitive advantage.
