

Collaboration

Renewed focus on collaboration during the pandemic to:

- Drive clinical innovation
- Trust levels
- Resource sharing

Types of collaborations:

- Data platforms and analytics
- Disruptive entrants
- Public/private partnerships
- Health systems as a platforms

Collaboration was never more evident than during the pandemic in addressing supply chain challenges related to COVID-19. Providers are likely to continue to struggle with supply chain issues in 2021 as COVID-19 outbreaks possibly surge, recede, and surge again. Collaboration will be key in order to meet their needs.
