

## BEPS Actions implementation by country

### Action 2 – Hybrids

On 5 October 2015, the G20/OECD published 13 final reports and an explanatory statement outlining consensus actions under the base erosion and profit shifting (BEPS) project. The output under each of the BEPS actions is intended to form a complete and cohesive approach covering domestic law recommendations and international principles under the OECD model tax treaty and transfer pricing guidelines.

It is now for governments to digest and introduce the necessary legislation. The table below sets out a summary of the expected implementation and timing of the proposals under Action 2 by territory.

[More information on the Global Tax Reset & BEPS >>>](#)

| Country   | Notes on implementation   | Expected timing  | Last reviewed by Deloitte |
|-----------|---|--|---------------------------|
| Argentina | Not yet known.  | Not yet known  | August 2017               |
| Australia | Following a consultation initiated by the Board of Taxation on the implementation of anti-hybrid rules, the government released a report on 3 May 2016 as part of the 2016-17 federal budget, and has confirmed that Australia will introduce anti-hybrid rules modelled on the OECD approach. However, legislation has not yet been drafted. | Payments made on or after 1 January 2018 or six months after the relevant law is enacted, whichever is later | July 2017                 |
| Austria   | Austria has specific provisions to counter hybrid mismatch arrangements. These measures likely will be amended once the EU  | 31 December 2019   | March 2017                |

anti-tax avoidance directive (ATAD) is transposed into domestic law.

---

|         |   |  |                  |
|---------|---|--|------------------|
|         | <p>The Finance Minister has stated that anti-hybrid rules should be developed within the context of the EU. Provisions countering (certain) hybrid mismatches have been agreed upon by the EU member states in the context of the amended parent-subsidiary directive, which Belgium has implemented, as well as in the ATAD and ATAD 2.</p>  | <p>1 January 2017 (transposition of amended parent-subsidiary directive)</p> |                  |
| Belgium | <p>As an EU member state, Belgium is subject to the two EU anti-tax avoidance directives (ATAD and ATAD 2) and, therefore, is required to implement the directives into its domestic law. The ATAD and ATAD 2 include anti-hybrid rules that cover hybrid mismatches between EU member states, and between EU member states and non-member states, respectively. Member states are required to adopt the domestic legislation necessary to comply with the directives by 31 December 2019 (with an extension until 31 December 2021 for the reverse hybrid provisions).</p> <p>In addition, Belgium is proposing to its tax treaty partners that the Action 2 recommendation that treaty benefits should not be available for items of income where neither of the contracting states allocates the income to one of its residents, should be included in the treaties.</p> | <p>1 January 2020 (1 January 2022 for reverse hybrid provisions)</p>         | <p>May 2017</p>  |
| Brazil  | <p>The Brazilian tax authorities tried to introduce through a Provisional Measure (PM) a cap limit on the deductibility of interest on net equity (maximum interest rate limited to 5% per year). However, the Congress repealed the PM.</p> <p>No further changes on hybrids expected in the near future.</p>  | <p>N/A</p>   | <p>July 2017</p> |

---
