Business Insights reporting

In response to continued change in the regulatory, technology and tax landscapes, many multinationals with subsidiaries are considering the appropriate mix of in-house and external resources for managing their operational processes.

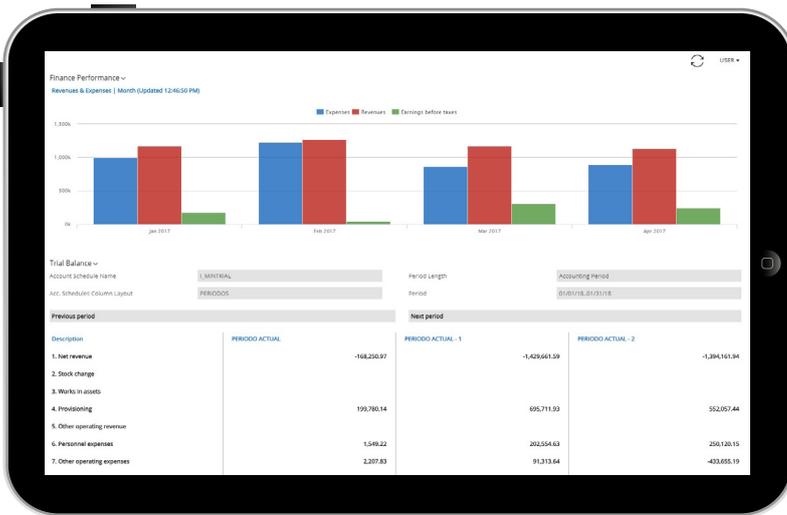

#### What is Business Digital Hub?

**Business Digital Hub (BDH)** is an easy-to-use **global enterprise solution** developed to help companies manage their accounting and statutory obligations. This flexible solution allows companies to share some or all of the processes in the ERP with Deloitte teams via an outsourcing arrangement.

It is a **viable and affordable solution for key corporate operational and functional processes** such as bookkeeping, finance reporting, budgeting support, accounts payable and receivable, treasury support, finance function support, and fixed assets management.

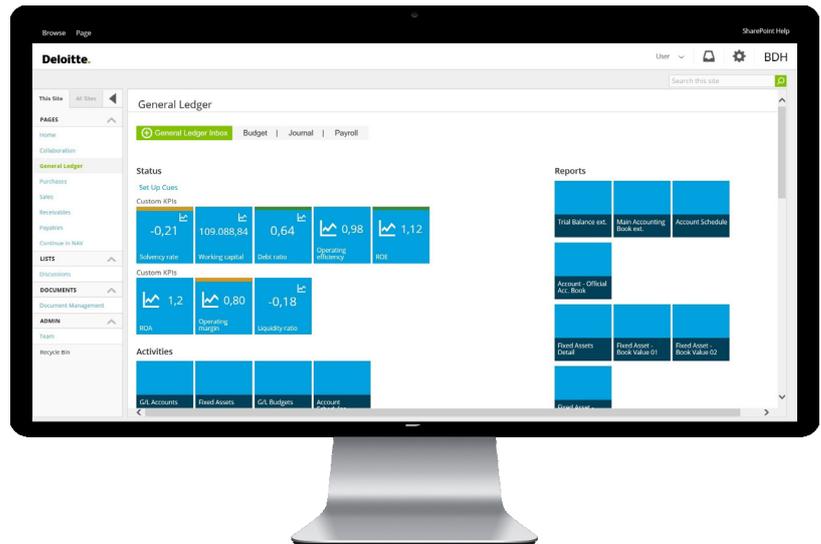

BDH combines an ERP system and collaboration workspace with the flexibility of a scalable, customizable solution with a consistent look and feel, also giving users real-time application access, data collaboration management, and global tracking tools.

## Key features

- A flexible, scalable solution
- Consistent “look and feel” across different countries
- A secure and easy gathering, storage and processing of documents. Users manage access, track, analyze and edit information stored.
- Enhanced collaboration between your team and Deloitte professionals: manage your accounting with quick and easy means of communication, exchange of documents, messages, timetables, etc.

- Advanced workflow engines: these allow your company and our organization to share the processes agreed upon in the collaborative model. It provides consistency and efficiency of the defined processes
- Business intelligence dashboard: consult, track and analyze the evolution of the business and Key Performance Indicators, in real time, from any device.
