From Spreadsheets to Real-Time Talent Insight: Driving Oracle HCM Cloud Analytics

5:45 p.m. — 6:30 p.m.
Marriott Marquis (Golden Gate Level) | Golden Gate C3

Richard Solari  
Managing Director  
Deloitte Consulting LLP

Faye Garrett  
Executive Director  
HRIS  
Cummins Inc.

In a world where the only constant is change, access to actionable talent insight any time and anywhere has become critical to competing in the marketplace. In this session learn how Cummins Inc., in partnership with Deloitte Consulting, designed and deployed a fully integrated and modern analytics cloud solution leveraging talent data from disparate HR technology platforms using the full suite of Oracle Analytics in the cloud in just 16 weeks. Now, equipped with automated data management, comprehensive data visualization, historical trend analysis, and other critical and next-generation HR metrics, the Cummins HR organization is capitalizing on key talent insights and driving value to the business.
Six digital disrupters finance teams can use to create enterprise value

3:45 p.m. — 4:30 p.m.
Moscone South | Room 207

Girija Krishnamurthy
Principal
Deloitte Consulting LLP

Anton Sher
Principal
Deloitte Consulting LLP

Shagun Goyal
Senior Manager
Deloitte Consulting LLP

FINANCE | SPONSORED CONTENT

Financial systems are evolving rapidly and finance teams now have the opportunity to uncover insights and drive efficiencies that can move the enterprise forward. Join us and explore the six digital disrupters that leading organizations are using to create business value. Learn how Deloitte's Finance in a Digital World offering combined with the power of Oracle Cloud Finance can help your organizations put these disrupters to work -- exploring massive amounts of information to drive insights, reducing costs, increasing efficiency and reducing risk all while enabling value creation across the entire enterprise.
Fulfilling the Tall Order: Sustaining Branding Beyond Candidate Experience

11:30 a.m. — 12:15 p.m.
Moscone South | Room 154

Laura Andrews
Specialist Master
Deloitte Consulting LLP

Companies must demonstrate that they are dedicated to a respectful and forward-facing digital experience, but this can be a tall order. Employee and candidate experience goes beyond branding. Today's workforce expect meaningful opportunities, information about career opportunities, and advancement early and often. The whole employee value proposition needs to be seamless. Pressure on companies and organizations has increased in recent years. In this session discover how Oracle HCM Cloud can help build a cohesive branding experience. See a user-friendly approach to communicating to all stakeholders that you value their contributions and expertise.
Navigating the Future of Work
12:30 p.m. — 1:15 p.m.

The world is changing, and with that, the workforce of the future will be very different than it is today. Driven by accelerating connectivity, new talent models, and cognitive tools, even the work itself is changing. In this session, explore the latest Human Capital trends and their potential impact on the Future of Work.
Learning Sessions

MONDAY, OCTOBER 22

PKN3850

HCM General Session - Oracle HCM Cloud Product Innovations and Roadmap
5:00 p.m. — 6:30 p.m.
Yerba Buena Center for the Arts (YBCA) Theater

Michael Stephan
Principal
Global & US HR Transformation Offering Leader
Deloitte Consulting LLP

Christopher Leone
Senior Vice President
Applications Development
Oracle

HCM | SPONSORED CONTENT
In this session hear the latest exciting news about Oracle HCM Cloud. Learn how Oracle is incorporating decision science, machine learning, adaptive intelligence, and other innovations for everyday use, and see how the newsfeed user experience provides the same functionality on both mobile and desktop. Learn about all the exciting new release information and the near-term roadmap. Understand how Oracle HCM Cloud can transform how you do business.
Creating an Integrated Risk and Performance Measurement System

11:45 a.m. — 12:30 p.m.
Park Central (Floor 2) | Metropolitan III

Anil Tondavadi
Senior Manager
Deloitte Consulting LLP

Indy Weerasinghe
Head of Profitability
M&T Bank

INDUSTRY | BUSINESS USE CASE

In today’s environment, financial institutions face the challenge of creating incremental growth in both the top-line revenue and in profitability. This is especially true within a low-growth environment where operating model changes are approached cautiously and disruptive technologies may be viewed as a threat. Traditional methods of performance measures alone will not provide insights for decision-making. In this session explore how data can be the unifying factor in joining both operational and performance measures to drive risk and financial outcomes and enable fact-based decision-making. Hear a banker’s perspective on how to modernize a profitability framework and measurement platform.
MONDAY, OCTOBER 22

Learning Sessions

CAS6430

Healthcare Provider Full Suite Transformation to the Cloud
5:45 p.m. — 6:30 p.m.
Park Central (Floor 3) | City

William Kin
Principal
Deloitte Consulting LLP

Brett Tande
SVP & CFO
Cottage Health

Cara Williams
Vice President & CHRO
Cottage Health

INDUSTRY | CUSTOMER CASE STUDY SESSION
In this session join Cottage Health's senior leadership team to hear about its business transformation and journey to Oracle Cloud for its finance, supply chain, human resources, and payroll applications, and hear how it enables continuous improvement, cost-effectiveness, and digital transformation.
Learning Sessions

INDUSTRY | CUSTOMER CASE STUDY SESSION

In this session hear a success story of a consumer products company growing via acquisitions and how it adopted Oracle’s JD Edwards platform for future growth while integrating newly acquired businesses. This integration consists of a state-of-the-art manufacturing plant, an automated warehouse, complex EDI transactions, and data conversions from SAP to a JD Edwards preconfigured solution. The success of this M&A integration provided a technology platform for a legacy business of 50 brands, 9 manufacturing plants, 50 warehouses, and 70 contract manufacturers. The migration project will also add Oracle EPM Cloud to move the business to a cost-to-serve model.

CAS 2155

JD Edwards Platform Adoption Success Story for Growth and Unlocking Business Value
5:45 p.m. — 6:30 p.m.
Park Central (Floor 2) | Olympic

Nitin Narkhede
Senior Manager
Deloitte Consulting LLP

Chris Colla
VP Information Technology, CIO
B&G Foods, Inc.

MONDAY, OCTOBER 22
Are you interested in learning how SCM Cloud can transform your traditional supply chain into a Digital Supply Network? The relationship between supply chain, manufacturing innovation and technology continues at an accelerating pace. Oracle's SCM Cloud provides a full suite of end to end supply chain capabilities which when combined with Digital creates the “catalyst” for a more compelling Value Proposition. Learn how to use Oracle SCM Cloud to enable a digital core as a platform for enhanced capabilities via solutions such as DesignSource to support common product definition, Control Towers for end to end supply chain visibility, digital disruptors such as RPA, IoT, and Blockchain, and RFSmart for mobile inventory management.
SCM General Session – Tomorrow’s Supply Chain, Today

4:45 p.m. — 5:30 p.m.
Moscone South | Room 154

Joe Hale
Global Lead
ERP Programme
Cardtronics

Richard Jewell
Senior Vice President
Applications Development
Oracle

Pete Cannistraci
Senior Manager
Deloitte Consulting LLP

David Burns
Specialist
GE

Richard Scheitler
CIO
The Wonderful Company

Oracle has expanded Oracle SCM Cloud capabilities so that they are now the premier, enterprise-class cloud SCM solution on the market, built from the ground-up for the end-to-end digital supply chain. But the journey to supply chain excellence will never be over. If the last fork in the road was on-premises to the cloud, the new forks are about big data, IOT, Blockchain, and machine learning. In this session explore all these capabilities and hear real-world examples of customers on their cloud journey. See demonstrations of upcoming disruptive innovations that are all part of Oracle’s vision for the adaptive, intelligent supply chain enabled by Oracle SCM Cloud.
Journey to the Cloud: Enabling Oracle EPM Cloud for Hilton Grand Vacations

12:30 p.m. — 1:15 p.m.
Moscone South | Room 152

Mark Plunkey
Principal
Deloitte Consulting LLP

Scott Martin
Specialist Leader
Deloitte Consulting LLP

Rich Wilkie
Senior Director, Product Mgmt EPM Apps Cloud
Oracle

Charles Maisch
Senior Director, Information Management and Analytics
Hilton Grand Vacations

Deo Balkaran
Senior Director
Corporate Systems
Hilton Grand Vacations

FINANCE | CUSTOMER CASE STUDY SESSION

Hilton Grand Vacations recently went through a divestiture that resulted in the need for new and improved close and reporting processes. Working with Deloitte the company began its journey to Oracle EPM Cloud to help solve its complex business reporting needs. In this session hear about its experiences, lessons learned, and the benefits gained from the initiatives leveraging Oracle EPM Cloud for financial close.
Robotic Process Automation: Bots Have Arrived, Are They Helping You?

1:45 p.m. — 2:30 p.m.
Park Central (Floor 2) | Concordia

Hrishikesh Valsangkar
Specialist Leader
Deloitte Consulting LLP

Enrique Barrantes
Business Analyst
and RPA Lead
Chevron Corporation

In your quest to lower costs, drive efficiency, improve quality, and gain competitive edge, have you tapped robotic technology yet? Robots or simply bots are increasingly a part of the virtual workforce, mimicking human actions to perform repetitive, high-volume tasks. Benefits of robotic process automation (RPA) include reduced labor cost, improved data quality, and better analytics. However, selecting a process for RPA can be tricky. This session explores the typical process selection criteria, highlights some use cases for RPA deployed at an integrated global energy company using Oracle’s JD Edwards, and provides a demo of a bot in action. See how bots can be used as an integrator between systems where integration adapters are not readily available.
As National Oilwell Varco (NOV) prepared to move to the Cloud, one of its primary concerns focused on how their cross-pillar applications would integrate while delivering a consumer grade user experience to their workforce. In this session, learn how NOV teamed with Deloitte Consulting to deliver a modern HCM solution that integrates with existing cloud applications.
FedEx Hybrid Cloud Integration Strategy

12:30 p.m. — 1:15 p.m.
Moscone West | Room 3012

Monis Muzaffar
Sr. Manager
Deloitte Consulting LLP

Michael Bunney
Global Client Advisor
Oracle

Michael Dearen
Director
FedEx Corporation

INDUSTRY | CUSTOMER CASE STUDY SESSION

FedEx's Corporate Transformation team is responsible for the design and implementation of world-class enterprise solutions. The group is in year three of its five-year journey to modernize and transform its finance, accounting, and supply chain functions. In this session learn why it adopted a hybrid cloud model to enable this transformation and get an update on this journey. Hear about the team’s groundbreaking work as the group discusses its vision, roadmap, experience, and lessons learned.
Learning Sessions

CAS5821

Audit 100 Percent of Expense/AP Payments Using Advanced Data Analysis in Oracle ERP Cloud

4:45 p.m. — 5:30 p.m.
Moscone South | Room 154

Alex Vaz
Senior Manager
Deloitte Consulting LLP

Stephen D’Arcy
Managing Director
PwC

Adil Khan
Managing Director
SafePaaS Consulting
Fulcrum Information Technology, Inc.

INDUSTRY | CUSTOMER CASE STUDY SESSION

In this session learn how to replace manual audit and data sampling and get complete coverage with advanced data analysis to check every expense and AP payment. Stop fraud, policy violations, misuse, and errors and prevent significant cash losses for your organization.
Just over a year ago, the City of Atlanta made the decision to move from Oracle E-Business Suite to SaaS for ERP, EPM, SCM, and HCM. The transformation of the back-office systems in Atlanta also included significant organizational, policy, and procedural changes. The City is going live in October and continues to focus on improving operations. In this session hear about the experience, lessons learned, best practices, and continuous improvement when implementing SaaS in government.
Upgrading to Oracle E-Business Suite 12.2.6 provides features that help federal agencies achieve mission-critical business needs for increased security and reduced maintenance cost. In this session learn about two large federal clients in the defense and health sectors that enabled these key features and had the highest return on investment. Some improvements include the ability to leverage new customer-driven enhancements such as the user interface in Oracle Application Framework with more developer controls that help streamline business processes, and optimized patching cycles with online patching capabilities.
Strengthen Security Using Advanced ERP and HCM Controls

Avinash BharathSingh
Ers Cyber Risk
Services Consultant
Deloitte Consulting LLP

Dharma Shanmugam
ERP Director
Mcdermott Inc.

Yong Sung Kwon
Senior Associate
KPMG LLP

INDUSTRY | CUSTOMER CASE STUDY SESSION
Replace error-prone and manual analysis with modern security analysis tools to design ERP and HCM roles, manage sensitive access, and protect data privacy. Continuously monitor for high risk changes and uncover new risks using data science techniques. Attend this session to learn more.
Factory of the Future: A Digital Manufacturing Transformation with Oracle Cloud

11:15 a.m. — 12:00 p.m.
Moscone South | Room 207

Jeff Croxen
Principal
Deloitte Consulting LLP

Mark Pinnow
Director Financial Systems and Analysis
Titan International Inc.

Steve Hathaway
General Manager
Titan International Inc.

SCM | SPONSORED CONTENT

Are you curious about what the factory of the future will look like for an industrial manufacturing company? Well wonder no more – join us and explore how Oracle's ERP and SCM Cloud solutions can provide a foundation for digital manufacturing transformation across the entire supply chain. In this session, you will learn how a global industrial products manufacturer, Titan International, is making this leap with a full Oracle Cloud deployment across their supply chain. We’ll also focus on how this core solution in the cloud is helping manufacturers to take advantage of digital disruptors like RPA, IoT, and Blockchain.
First introduced in February 2014, Oracle EPM Cloud has grown significantly in solution footprint as well as customer adoption, and now offers a complete set of proven EPM capabilities in the cloud, deployed by several thousand global customers. But moving to the cloud is not about simply lifting and shifting capabilities from on-premises to the cloud; it’s an opportunity to reinvent and transform your business processes and infuse them with best practices and emerging technologies. Attend this session to learn about companies that have successfully migrated from Oracle Hyperion to Oracle EPM Cloud to transform business processes within and beyond finance.
Thinking beyond the numbers: Finance as digital driver
11:15 a.m. — 12:00 p.m.
Moscone South | Room 207

Matthew Soderberg
Principal
Deloitte Consulting LLP

Varun Dhir
Principal
Deloitte Consulting LLP

Sid Pinnamaneni
Senior Manager
Deloitte Consulting LLP

We are living in the early days of the fourth industrial revolution with advances in exponential digital technologies such as RPA, cognitive computing, and blockchain, and this digital disruption is impacting every facet of an enterprise. CFOs and the finance organization can either help drive this “digital agenda” or be left behind. With Oracle Cloud, the agility of the finance functions can be increased by appropriately identifying and deploying digital enablers. Join us and learn how this new class of digital disruptors are transforming how the work of finance gets done.
A JD Edwards EnterpriseOne UX One Case Study: The Perfect Partner to Classic Applications

3:45 p.m. — 4:30 p.m.
Park Central (Floor 2) | Olympic

Stephen Shim
Senior Manager
Deloitte Consulting LLP

Bernie Mitchell
Specialist Leader
Deloitte Consulting LLP

FINANCE | CUSTOMER CASE STUDY SESSION

In this session hear how using classic Oracle's JD Edwards applications built using traditional tool sets, when paired with JD Edwards EnterpriseOne UX One composite pages, created a simple yet cost-effective global data visualization solution for Chevron. The familiar and intuitive JD Edwards EnterpriseOne UX One applications with an alert, analyze, and act paradigm improved productivity in real-life situations for Chevron's finance users. The session includes a case study of how data visualization along with application personalization was able to improve upward reporting of finance metric dashboards as well as assisting supervisors in their day-to-day troubleshooting of finance data, such as data integrity errors, out-of-compliance transactions, and misaligned balances.
Learning Sessions

CAS1122

Enterprise Financial Planning with Oracle Enterprise Planning and Budgeting Cloud Service

3:45 p.m. — 4:30 p.m.
Moscone South | Room 154

Samrat Chakraborty
Senior Manager
Deloitte Consulting LLP

Bill Roy
Senior Director
Information Technology
Western Digital Corporation

Sree Putreddi
Senior Manager
EPM Platform
Western Digital Corporation

In this session see how Western Digital (WD) transformed its planning and reporting process with a multistage implementation of Oracle Enterprise Planning and Budgeting Cloud Service. WD merged with Sandisk and HGST and as a result had three disparate planning processes managed by and consolidated within Excel. Oracle Enterprise Planning and Budgeting Cloud Service’s prebuilt, uniform planning process and simple, intuitive planning forms, dashboards, and interface allowed WD to standardize its planning process, introduce driver-based forecasting, and offer a centralized, consolidated, trusted reporting environment.
With the growth of the cloud, there is strong evidence that organizations are comfortable using modern business applications from cloud service providers. However, as organizations rapidly scale to meet line-of-business demands, the threat landscape also expands. Securing hybrid and multicloud environments is becoming more challenging as companies face external cyber threats, internal fraud, and the growing complexity of regulatory compliance requirements. In this session hear how Oracle customers are able to secure their cloud environments with capabilities including adaptive multifactor authentication and anomalous user behaviour detection and response using Oracle Identity Cloud Service and Oracle CASB Cloud Service.
FedEx, Delivering Oracle Cloud Analytics At Scale

10:00 a.m. — 10:45 a.m.
Moscone West | Room 3007

Jason Davis
Manager
Deloitte Consulting LLP

Mike Mitchell
Manager FSAC
FedEx Express

FedEx is transforming the back office with Oracle Cloud. In this session learn how Oracle Analytics Cloud and Oracle Exadata Cloud is transforming the speed and availability of analysis for global business users. Teaming with Deloitte Consulting, FedEx is reaping the rewards of a cloud-first approach to analytics powered by Oracle. FedEx and Deloitte use a specific hybrid source transition strategy to successfully bring the enterprise to the cloud in conjunction with other aspects of FedEx’s overall path to the cloud. Learn about the journey from many disparate on-premises systems all over the world to a global consolidated analytical solution.
The oil and gas industry is facing a number of market shifts and disruptors, including digital innovation, M&A activities, and the changing workforce. In this session learn how Oracle ERP Cloud can be deployed in the oil and gas industry, and how cloud adoption can be the starting point for the future digital finance platform. The session also includes a case study of a company’s journey through solution selection, implementation, and the key lessons learned in achieving technology and process standardization. Explore unique industry processes driving project complexity, and get a comprehensive solution overview for accounting and integration.
Demystifying Life Sciences and Healthcare Revenue Management in the Cloud Marketplace

11:00 a.m. — 11:45 a.m.
Park Central (Floor 3) | Stanford

Muhammad Ali Arshad
Senior Manager
Deloitte Consulting LLP

Srikanth Shamarao
Manager
Deloitte Consulting US LLP

The highly regulated life sciences and healthcare industry sectors pose unique and complex requirements for contacts, billing, pricing, claims, chargebacks, and rebates, but the profitability of the business is tightly knit with these processes. With the migration to SaaS at the forefront of CIO objectives, the demand for a streamlined revenue management and billing solution has grown exponentially. This session demystifies complex, sector-based requirements and provides an overview of both cloud and hybrid solutions based on market analysis, and also includes specifics on the Oracle Cloud solution. The analysis includes market trends for outsourcing versus in-house business processes and impacts to the bottom line.
Strategic Procurement Case Study

Using cloud solutions for procurement activities is nothing new, but strategic procurement solutions have evolved into collaborative platforms that deliver benefits beyond simple cost reduction. This session explores approaches that should be considered and provides a customer case study covering an approach, lessons learned, and achieved benefits.
FedEx Delivers on Cloud Integration Plan with Oracle

1:00 p.m. — 1:45 p.m.
Moscone West | Room 3016

Monis Muzaffar
Senior Manager
Deloitte Consulting LLP

Basu Bangalore
Manager
FedEx

In this session learn how FedEx standardized business processes and controls by re-engineering its back-office with Oracle Cloud. Hear from two FedEx business leaders how the company is leveraging Oracle Cloud services to standardize and expand this model to other FedEx business entities across the globe. Get details about how the FedEx supply chain division used Oracle’s iPaaS, PaaS, and IaaS solutions to integrate external and on-premises business systems, which led to reduced costs and an increased ability to manage the business and support scalability.

Interested in learning more about our Oracle Finance in a Digital World offering? Join us to discover the basics of digital finance and how to continue your exploration into the digital future.

Organizations today are judged for more than their success as a business. They're now being held responsible for their impact on society at large—transforming them from business enterprises into social enterprises. In this session, explore the highlights of how HR transformation can be enabled by Oracle HCM Cloud to help your organization adapt and prepare for future growth.

Come join us to learn about the digital disruptors such as Blockchain, IoT, Robotics and Data Analytics and understand how Deloitte can help you integrate these technologies with JD Edwards ERP to get you the competitive edge you are looking for.

Oracle Supply Chain Cloud offers an end to end solution to enable business processes across the supply chain. With Cloud as the digital platform, disruptors such as Robotic Process Automation (RPA), Blockchain, Internet of Things (IoT), Mobility, Analytics, & Cognitive are offering new capabilities and transformational opportunities. Learn how Oracle Cloud and these Digital Disruptors together provide a compelling Value Proposition.

Join us to learn about the Next Generation of Finance and Workforce Analytical applications for the Oracle Analytics Cloud.

The CloudMIX ONE ecosystem provides unified customer experience and visibility across engagement channels. Bringing together Oracle Cloud applications with Deloitte Digital's implementation approach, CloudMIX ONE enables companies to efficiently realize their goals and ambitions in the marketplace.

We know that diversity is good for business, so what's holding us back from achieving our diversity and inclusivity goals in the tech industry and the workplace at large? It's not only the applicable thing to do: Having diverse teams and leadership helps to create the products and services that better reflect consumers' wants and circumstances. In this unplugged discussion, leaders share how to build inclusive cultures where people of many genders, ethnicities, ages and sexual orientations feel like they belong.

Experience the capabilities of Oracle's Cloud Warehouse Management system and hear about Deloitte's fresh experiential learnings in implementing the first enterprise-level Oracle Cloud WMS integrated with Oracle Cloud ERP.

Join us to learn how to transform your Cloud ERP implementation journey using cognitive and automation to improve business process, testing, configurations and conversions.
