

Intelligent spend. Intelligent team. Intelligent enterprise.

Procurement and supply chain leaders today understand that the challenges of spend management are never-ending. Constant disruption creates a completely new business environment, requiring intelligent spend management and a new vision for the procurement function.

Capabilities to drive results

Deloitte brings a dedicated team plus a total set of capabilities, experience, and resources for helping you rapidly transform procurement and unlock the full benefits of intelligent spend management.

-  Thousands of specialists focused on intelligent spend management solutions
-  Multidisciplinary skillset encompassing strategy, operations, technology integration, data management, cloud, tax, risk, human capital, and more
-  Certified across the full suite of SAP® solutions, including SAP® Ariba®, SAP® Concur®, SAP® Fieldglass®, and SAP S/4HANA®

-  Global team to support your business no matter where you operate
-  Lengthy track record helping clients across industries deliver projects on time and on budget

Intelligent impact

Activate complete, end-to-end digital capabilities that can help you generate new value across your supply chain. Working side by side with Deloitte can help you deliver on the promise of intelligent spend management—to support tomorrow's intelligent enterprise.

-  Become a more agile business that can respond confidently to disruption
-  Streamline work, reduce friction across your network, and innovate rapidly
-  Source more effectively—save costs, boost efficiency, increase profits
-  Improve customer satisfaction and the quality of products and services
-  Leverage data to generate intelligent insights and automate processes
-  Become a more insightful organization—to get ahead of needs and opportunities
-  Improve strategic decision-making
-  Boost compliance and reduce risk
-  Elevate the employee experience, with tools geared toward tomorrow's workforce

Why Deloitte for procurement transformation?

Deloitte's total approach to transformation goes beyond technology implementation—to help your procurement function become digital and to help you revolutionize spend management. What sets us apart? Take a look for yourself.

Global scale

- ▶ More than 220 projects to date on SAP Ariba, SAP Fieldglass, and SAP Concur
- ▶ More than 1,000 practitioners globally—part of Deloitte's 23,000-person network of SAP specialists

Invested in results

- ▶ Innovative pricing model tied to your budget, your project timeline, and the results we help you deliver

End-to-end transformation

- ▶ Extensive experience with full SAP suite, including SAP® Integrated Business Planning, SAP Ariba, SAP Fieldglass, SAP Concur, and the SAP S/4HANA® digital core ERP—as well as a wide variety of other ERPs
- ▶ Ability to tightly integrate technologies and processes across the entire extended supply chain

Spend specialists

- ▶ Deep understanding of issues that keep procurement leaders awake at night—taxes, spend management, spend optimization, risk management, and more
- ▶ Big ideas for tapping big value—e.g. a refund study to find and fix overpayments, using savings to fund new projects

Innovative

- ▶ Ready-to-deploy Industry 4.0 solutions that can help you streamline your business and extend the impact of new digital processes—from machine learning to IoT and beyond

Recognized

- ▶ Consistently ranked by analyst firms as a leader in categories central to spend management and supply chain transformation
- ▶ A record number of SAP® Pinnacle Awards, including 2019 Digital Partner of the Year; SAP S/4HANA® Partner of the Year for three years in a row; 2018 SAP® Ariba® Partner of the Year

Let's talk

As expectations rise and as new technologies redefine the possibilities, how will you respond? If making the procurement function more intelligent is part of the plan, we should talk. Contact us to schedule a demo of intelligent spend management or to get additional transformation insights.
