

# Deloitte CloudMix On Oracle

- Enterprises are increasingly adopting cloud applications for speed-to-market and lower TCO. Cloud solutions have evolved and Oracle's portfolio of cloud solutions offers market-leading functionality to meet specific business needs.

- Enterprises now have a variety of cloud solutions available to solve business issues quicker and with greater flexibility — all under one roof.

- Deloitte's CloudMix on Oracle integrates Oracle's cloud applications and wraps Oracle's enterprise technologies around industry processes - offering companies a unique way to adapt, as their customer needs evolve.

- If you are interested in gaining additional insights on the underlying technology landscape or a demo of the solution, please reach out to our designated contacts (on the back of this card).
