

Deloitte

CASE STUDY: ENERGY, RESOURCES & INDUSTRIALS

Delivering improved productivity and a better employee experience

Providing the best tools needed to the maintenance team so they can do their job well.

THE ISSUE

End users were struggling to navigate the numerous transaction codes within the plant maintenance module of the existing SAP® ERP.

THE SOLUTION

With the end goal of improving shop floor productivity and employee experience, the client engaged Deloitte to understand the data and capabilities users require from SAP Plant Maintenance. Utilizing the SAP Fiori[®]-enabled Reimagine Shop Floor solution, Deloitte stood up a streamlined, mobile-first end user interface that allowed the maintenance team to effortlessly perform transactions with minimal training.

THE IMPACT

10% improvement in annual productivity led to annual savings

Equipped employees to perform transactions from any location

records

Improved accuracy of maintenance

2

ᢆᡊᠫ

Increased end-user satisfaction

Simplified user interface

Reduced effort for onboarding and training employees
