We help our clients maximize value

Service provided	Value for client
Assessment of the client's Heavy Oil IT portfolio creating a "Heat Map" and Global Standards Picture	<ul style="list-style-type: none"> The client engaged Deloitte to conduct an assessment of their Heavy Oil IT portfolio creating a "Heat Map" and Global Standards Picture to identify areas where the portfolio is effectively enabling the business processes and areas which could benefit from focused IT investment. As part of the engagement, Deloitte conducted over 40 interviews with local IT representatives, global IT portfolio managers and key business stakeholders to document the IT and Business health of the current portfolio.
Internal audit and SOX compliance function and also provided quality assurance and review services	<ul style="list-style-type: none"> Deloitte provided resources to work under the direction of the internal audit and SOX compliance function, and also provided quality assurance and review services on various projects as requested by the client on an ongoing basis. The scope of work and approach to each individual project depended upon the nature of services to be performed under each individual project.
Developing a ten-year human resources strategy	<ul style="list-style-type: none"> Deloitte was employed to help the client develop a ten-year HR strategy and implementation plan for the parent company and its five subsidiary companies.
Helped the client develop a business services data warehouse and a suite of intuitive dashboard reports to assist in delivering a multi-billion dollar major capital project	<ul style="list-style-type: none"> Deloitte was engaged to develop a business services data warehouse and a suite of intuitive dashboard reports to assist delivering a multi-billion dollar major capital project. We provided management with timely, accurate information for critical functions including cost, scheduling, contracts and procurement, funding budget management, and health, safety and environment.
Analysis of strategic management in exploration	<ul style="list-style-type: none"> Deloitte completed client comparative analysis against benchmarked companies in terms of exploration management. We also identified global exploration trends. We obtained recommendations for the development of strategic alternatives in exploration work.
Finance and corporate treasury strategy for 2015	<ul style="list-style-type: none"> By using a proven Finance Transformation methodology, Deloitte was able to provide a robust framework for both the analysis of current capabilities and the visioning, strategy development and implementation planning for the future.

Service provided	Value for client
Exclusive financial advisor to a 50-50 merger	<ul style="list-style-type: none"> Utilized our in-depth knowledge in the offshore Oil & Gas services industry and seasoned divestiture process management expertise, ensuring a seamless completion. The team successfully managed the due diligence process (including addressing buyer's Q&A), management presentations and site visits with limited support from key management personnel due to resource constraints within the client's organization. The team conducted and coordinated negotiations on behalf of the client, encompassing the commercial and legal aspects.
Tax consulting and compliance advisor	<ul style="list-style-type: none"> Deloitte was selected as the tax consulting and compliance advisor for a Chinese client's arm in Canada. The strength of our team, industry expertise, client relationship in China and Canada were our success factors. This project, led by the Beijing office, demonstrates our global strength – combining the best tax resources from China, the Netherlands, France, United Kingdom and Columbia seamlessly.
Redesign the company's mobility programs	<ul style="list-style-type: none"> To redesign the company's mobility programs and policies, Deloitte initiated phase two of a broader HR Transformation project begun earlier in FY11. The Toronto based team leveraged the U.S. practice and will serve to strengthen our Human Capital practice in the O&G industry.
Audit	<ul style="list-style-type: none"> The audit of a Geneva-based Canadian listed Oil & Gas company. This is the group's first listed, upstream company audit client and represents a key step in continuing to establish the credentials of the practice in Geneva, and more widely in Switzerland.
IFRS	<ul style="list-style-type: none"> IFRS consulting engagement for a Japanese petroleum company.
Enterprise Content Management (ECM) strategic review	<ul style="list-style-type: none"> ECM is a critical task for the client which directly impacts enterprise risk (e.g. by reducing accidental ground disturbances), and operational efficiencies (e.g. by improving search and collaboration capabilities between multiple business units for quick transition from discovery to exploitation planning). Developed an ECM strategy and roadmap to allocate capital and resources to projects with appropriate scope and clear business benefits. Based on the outcome and recommendations from the strategic review, the client retained Deloitte to carry out four foundational ECM projects to improve governance, standardize processes and technologies, develop a portal strategy and define metadata standards.

Service provided	Value for client
Scientific research and experimental development	<ul style="list-style-type: none"> This scientific research and experimental development (SR&ED) win is noteworthy for the size of its potential. The win comprises 100% acceptance of all R&D claims for the client between 2007 and 2009 as well as approval on a specific Pre-Claim Project Review for one of the client's projects.
Internal audit co-sourcing project	<ul style="list-style-type: none"> Deloitte Peru was selected for an internal audit co-sourcing project. The project represents integrated internal audit that encompasses several areas of expertise including ERS, Audit, Tax and Legal.
Analysis of gas fields in Russia/CIS	<ul style="list-style-type: none"> Deloitte provided the client with macro and microanalysis of the gas fields, financial modeling of selected gas fields and an evaluation of the local gas transportation system and related tariffs.
