Public policy

Deloitte actively participates in policy discussions on some of today's most important socioeconomic challenges, seeking outcomes that benefit society, government, and business. Through a coordinated, public policy approach, we've been able to successfully build relationships with people who matter on issues that matter, giving us high-profile platforms on which to share our voice.

Deloitte representatives engage with respected, effective external organizations and influencers on the proper functioning of capital markets, ethical business practices, societal advancement, workforce development, and other areas of shared concern. In doing so, we advance policy outcomes that help serve the public interest and shape the environment in which all businesses, including ours, operate.

The perspectives gained by working with clients, community programs, and other groups—including investors, regulators, professional bodies, think tanks, and more—inform Deloitte's global efforts to create an inclusive, consistent, and forward-looking public policy agenda and foster dialogue.

Deloitte's public policy efforts focus on three primary platforms that are important to our member firms' clients:

- A **trusted financial system** that is resilient, transparent, and serves the public interest;
- **Inclusive growth and innovation** that appreciates economic, social, and environmental issues that matter most; and
- The **future of the workforce**, including the impact of technology on jobs, skills and learning, and the labor market.

Within these themes, several specific areas of focus drive our activities. Some of these issues are: [audit quality](#), corporate governance, [anti-corruption](#), [cyber/data security](#), trade, social progress, sustainability, [diversity and inclusion](#), [education and skills](#), the gig economy, and [purpose-led leadership](#).

Our professionals help advance these issues by working with key external organizations that include:

- Group of 20 (G20) and its outreach group, the Business 20 (B20);
- Organization for Economic Cooperation and Development (OECD);
- United Nations (UN);
- World Trade Organization (WTO);
- Asia-Pacific Economic Cooperation Forum (APEC);
- German Marshall Fund (GMF); and
- Social Progress Imperative (SPI).

The Deloitte Global Public Policy group is supported by member firm public policy programs that are active across the network, as well as the Public Policy Executive Council (PPEC), an informal advisory group composed of member firm public policy leaders and key business unit leaders. This approach allows us to coordinate Deloitte's policy positions across our various businesses and geographies, and helps ensure our public policy voice is relevant, consistent, and aligned around the world.
