# PROTOTYPING AS A SERVICE

## What does it entail?

Our cross functional, agile teams develop **proof of concepts and mature them into fully developed solutions** by leveraging our portfolio of prebuilt assets and development kits to accelerate time to market and decrease development costs

## What can our teams build?

We have industry experience with a wide range of exponential technologies including **Blockchain and fintech vendor platforms, cognitive computing, robotics and automation, and analytics** to help bring your vision from paper to end product

## Why is it important?

Our prototyping services enables you to **rapidly test your ideas and hypothesis at minimal cost** in an immersive, collaborative environment

## How does it work?

Our teams, in **collaboration** with your organization's stakeholders, spend 2 to 3 weeks developing a visual proof of concept for a selected value proposition, leading into a 3-6 month rapid prototyping effort with **demos at the close of each agile sprint**
