Our goal is to help organisations manage workplace misconduct and strengthen governance effectively. Deloitte is a trusted and recognised global provider of whistleblowing solutions for corporate and public sector entities across the globe.

The Future of Trust

Whistleblowing on the rise

Unprecedented changes in the workplace, remote working practices, and financial pressures have increased the likelihood of fraud, misconduct, and other unethical behaviour in organisations.

With heightened awareness of social issues and the rise of social media, organisations are under more pressure than ever to protect their reputation by ensuring that any misconduct is identified and addressed in a timely manner.

Concurrently, regulators across the world have raised the bar for organisations to deal with financial crime and implement whistleblowing processes - breaches of which can result in significant financial penalties.

Whistleblowing remains one of the most effective counter-measures* to help organisations deal with workplace misconduct. Protect your employees, your organisation, and your reputation by providing secure and trusted channels to report misconduct.

In EU, the European Parliament has issued the Directive 2019/1937 that requires all entities with 50 or more employees to maintain a whistleblowing program where the identity of the informer is kept confidential and protected from retaliation, and feedback are provided the informed in due time.
