Deloitte d.o.o. leadership message

This report sets out the practices and processes that are currently employed by Deloitte d.o.o., in accordance with the requirements of the Audit Act (*Official Gazette 127/2017*) and the European Union's Regulation 537/2014 on specific requirements regarding statutory audit of public-interest entities.

All information provided in this report relates to the situation of Deloitte Croatia on 31 December 2018, except if indicated otherwise.

Deloitte is committed to the consistent execution of high-quality audits, professional excellence and serving the clients with distinction. We recognize the need for us to truly reflect on our public interest role and to acknowledge that there is a great opportunity to further engage with the stakeholders to bring steps that will benefit public interest.

As we aspire to the highest standards of audit quality, we are focused on making audits more responsive to rapidly changing market conditions, evolving investor demands, and changing regulatory requirements. We are enhancing our learning and development programs to build the skills and capabilities required of the next-generation auditor in a digitally driven future. We are confident that our ongoing digital transformation, along with the investments we continue to make in our audit processes, policies, and quality controls, are resulting in enhancements to our audit quality that will serve the interests of the investing public and the companies we audit.

The firm and the profession as a whole made substantial investments in audit quality. We will continue to evolve and deliver audits of the highest quality and to provide confidence and transparency to all our stakeholders.

We publish this report each year to provide disclosure that is responsive to certain categories of information identified in Croatia and the European Union standards directed at corporate governance and transparency. We commit to you that Deloitte will continue to collaborate with regulators and others on issues affecting financial reporting and the audit profession. Within this report, we share more about our commitment to, and continued investments in audit quality.

Deloitte d.o.o.

Deloitte network

Deloitte Croatia: legal structure and ownership

Deloitte d.o.o. is connected to the Deloitte network through Deloitte Central Europe Holdings Limited, a member firm of Deloitte Touche Tohmatsu Limited. Deloitte d.o.o. is referred to throughout this report as "Deloitte Croatia", and Deloitte Central Europe Holdings Limited is referred to throughout this report as "Deloitte Central Europe". Deloitte Central Europe is a regional organisation of entities organised under the umbrella of Deloitte Central Europe Holdings Limited. Services are provided by the subsidiaries and affiliates of Deloitte Central

Europe Holdings Limited, which are separate and independent legal entities.

Deloitte Croatia operates as a limited liability company, established under Croatian law, with registered office at Radnička 80, Zagreb and registration number 030022053.

The share capital of the Company amounts to HRK 44,900.00. Details regarding the ownership structure of the Company are available at <https://sudreg.pravosudje.hr/registar>.

Network description

The Deloitte network

The Deloitte network is a globally connected network of member firms and their affiliates operating in more than 150 countries and territories across the world. These separate and independent member firms operate under a common brand.

Deloitte Touche Tohmatsu Limited (DTTL or Deloitte Global)

Deloitte Touche Tohmatsu Limited is a UK private company limited by guarantee. DTTL serves a coordinating role for its member firms and their affiliates by requiring adherence to policies and protocols with the objective of promoting a consistently high level of quality, professional conduct and service across the Deloitte network. DTTL does not provide professional services to clients, or direct, manage, control or own any interest in any member firm or any member firm's affiliated entities.

For more information about the Deloitte network, please see: [About Deloitte](#).

Deloitte Croatia: governance – leadership in action

Deloitte Croatia is represented by the management. In compliance with Deloitte Croatia’s Articles of Association the management is composed of one or more members. The management currently has five members. All members are directors with right to represent Deloitte Croatia solely and without limitations. Details of registered directors of Deloitte Croatia are available at <https://sudreg.pravosudje.hr/registar>

The following are the members of Deloitte Croatia management:

Deloitte Croatia– Management

Branislav Vrtačnik, President of the Management

Marina Tonžetić, Director

Juraj Moravek, Director

Dražen Nimčević, Director

Eric Daniel Olcott, Director

In all of their activities, Deloitte Croatia senior leaders are responsible for the overarching objective of audit quality, including compliance with applicable professional standards and regulatory requirements. Deloitte Croatia strategy is developed in alignment with the overall strategic direction established for the Deloitte network.

What Deloitte Audit & Assurance brings to capital markets

Audit & Assurance Transformation

Being a relevant profession of the future and a sustainable practice that evolves with the pace of change in technology and society is critical. Driving this goal is the Deloitte Audit & Assurance Transformation initiative, which is currently being developed and deployed by Deloitte Croatia under the sole responsibility of Deloitte Croatia.

Audit & Assurance Transformation is an important shift across the network in the way Deloitte professionals work and includes:

Deloitte Way: standardization of audit processes supported by global technology suite	Real-time audit quality monitoring
Enhanced talent model which includes learning, rewards and recognition, centers of excellence, and delivery centers	Agile deployment of tools and technologies to respond to changing environments

Audit engagement acceptance and continuance

Deloitte Croatia has detailed policies and procedures in place for accepting prospective clients and engagements and assessing engagement risk. These policies and procedures are designed with the objective that Deloitte Croatia only accepts engagements where it:

- Is able to perform the engagement and has the capabilities, including time and resources, to do so.
- Can comply with all relevant ethical requirements and professional standards, including independence and conflicts of interest assessments and considerations.
- Considered the integrity of the potential client's management team.

Learning and development initiatives

Central to the Audit & Assurance Transformation initiative are various enhancements to the Deloitte talent model:

- A single Audit Learning Curriculum for auditors (supplemented based on local requirements as needed).
- Specific learning opportunities for traditional auditors (e.g. on big data) and specialists (e.g. audit skills). Mixed composition of traditional audits and specialists on engagement teams provides complementary skillsets, but also the need for different learning offerings.
- Enhanced project management, which is viewed as a key capability for the auditor of the future, and as such, is being integrated into talent strategies (e.g. recruitment and learning).

The objective of the Deloitte Croatia professional development program is to help partners and other professionals maintain and enhance their professional competence and ensure consistency of audit execution. To supplement on-the-job development, Deloitte Croatia provides formal continuing professional development programs in relevant subject areas. Certain courses in the programs are mandatory and others are optional, such that each auditor or trainee auditor can personalise their learning program. During the first years, most training is comprised of mandatory courses on technical topics including audit methodologies and processes but afterwards the

optional part increases given that individual needs become more diverse. An individual learning programme is required as from approximately four years' experience.

Through an automated monitoring system it is possible to check the status of internal and external courses followed by an individual auditor. Continuing education is also a factor taken into account for the yearly evaluation of audit staff and the assessment of their growth potential.

Deloitte Croatia establishes minimum levels of continuing professional development to be undertaken by partners and other professionals within a specific period of time. To achieve these levels of development, Deloitte Croatia offers structured, formal learning programs, such as internal or external courses, seminars, or e-learning covering all areas of the competency model (e.g., shared competencies, function-specific technical competencies, and competencies in areas of specialization).

Partner remuneration

Execution of high quality audits is expected from all professionals and is embedded across the Deloitte network. Audit quality is built into performance standards at every level, against which professionals' overall evaluations are measured.

Deloitte Croatia's partners are evaluated on a yearly basis, and depending on the outcome of the evaluation, the remuneration of partners may increase or decrease. Specifically, partner evaluations take the following factors into account: quality, expertise, integrity, professionalism, entrepreneurship, independence and compliance.

External and internal audit quality monitoring

Audit Quality Monitoring & Measurement

A continued focus on audit quality is of key importance to the Deloitte brand. It is critical that a Deloitte audit is consistently executed and of high quality, wherever in the world it is performed.

The objectives of the Audit Quality Monitoring & Measurement (AQMM) program are to:

- Transform the way audit quality is monitored and measured and audit deficiencies are resolved; and
- Enhance the internal system of quality control which all Deloitte network firms follow

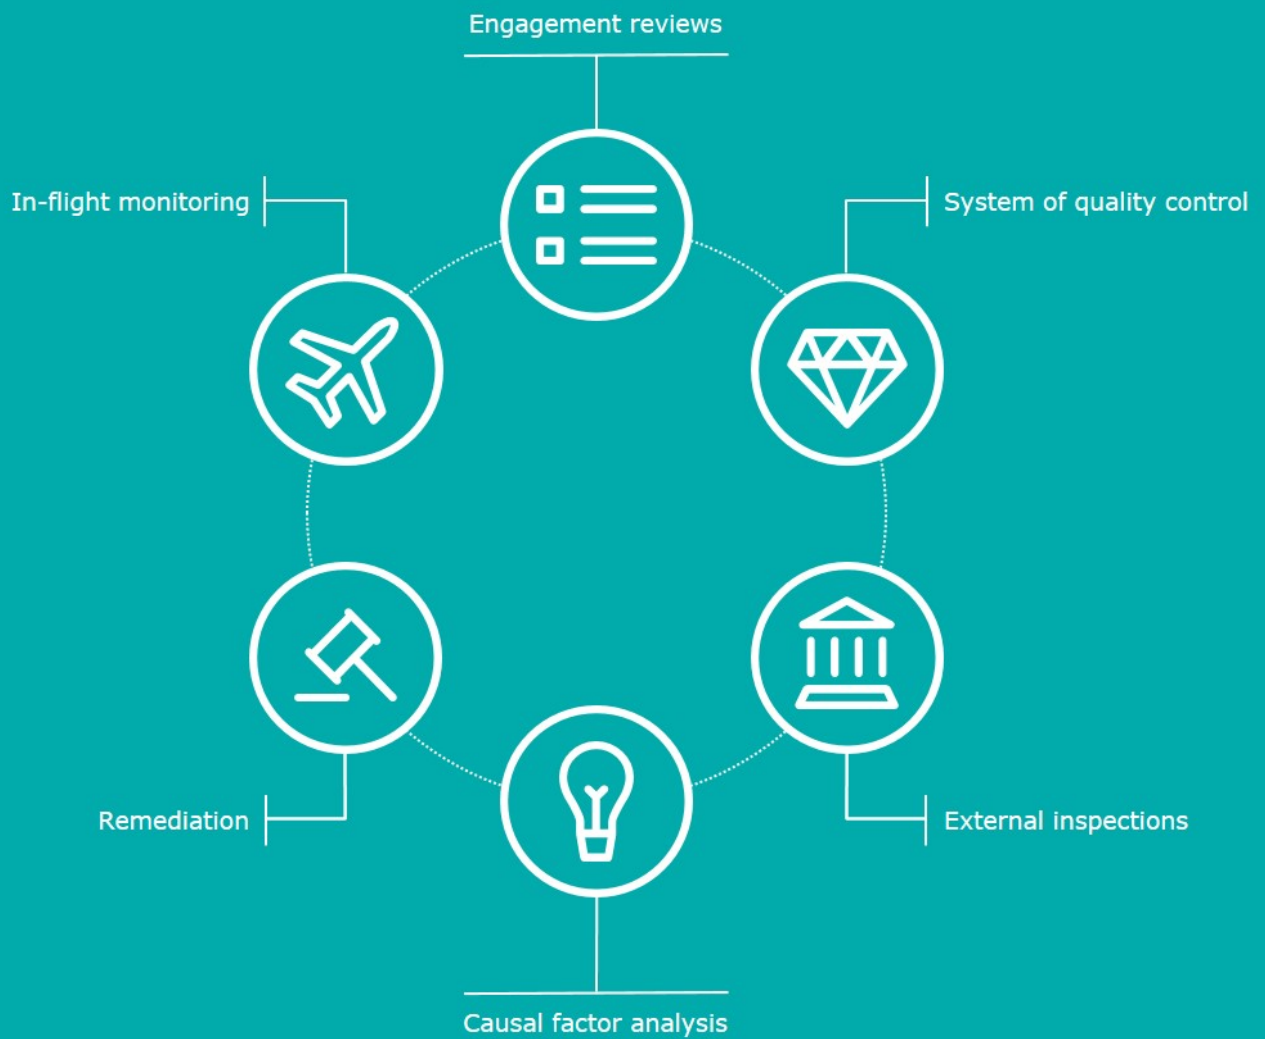

The AQMM program is focused on driving:

- Continuous, consistent, and robust monitoring of completed and in-flight engagements
- Fundamental understanding of deficiencies and timely execution of corrective actions by all member firms consistently
- Greater transparency and consistency in reporting key measures of audit quality

Deloitte Croatia maintains policies and procedures to promote an internal culture based on the recognition that quality is the number one priority. Deloitte Croatia focuses on professional excellence as the foundation for achieving audit quality on a consistent basis.

Audit Quality Monitoring & Measurement

In-flight monitoring

Continuous audit quality monitoring by Deloitte Croatia drives a faster response to audit issues on “in-flight” engagements, driving identification, timely solutions, and real time corrective actions achieved by:

- Deployment and monitoring of a series of core Diagnostics, enabling engagement partners and teams, as well as Deloitte Croatia audit quality leader(s) to continuously monitor audit quality and take immediate action.
- A program of subject matter specific “health checks” to assist Deloitte Croatia audit quality leader(s) in assessing progress and identifying potential issues on in-flight engagements.
- An integrated approach to monitoring and measuring execution of the audit methodology enhancements.

Engagement quality control reviews

Statutory audit reports on the annual accounts or consolidated accounts relating to a public interest entity, among others, are subject to an engagement quality control review by a partner with sufficient and appropriate experience and professional qualifications, prior to issuance of the report. The engagement quality control reviewer may be assigned to Deloitte Croatia from within Deloitte Central Europe to work under Deloitte Croatia responsibility, but is not part of the engagement team and is not portrayed in fact or appearance as a member of the engagement team. The reviewer is appropriately briefed by the engagement team and conducts the review in such a manner that sufficient knowledge and understanding is obtained in order to reach conclusions. The reviewer’s responsibility is to perform an objective review of significant auditing, accounting, and financial reporting matters, to document the procedures the reviewer performed, and to conclude, based on all the relevant facts and circumstances of which the reviewer has knowledge, that no matters that have come to his or her attention would cause the reviewer to believe that the significant judgments made and the conclusions reached were not appropriate in the circumstances.

For engagements that have been identified as having a higher risk, a special review partner is assigned to provide an additional level of competence and objectivity in planning and performing the engagement. The special review partner may be assigned to Deloitte Croatia from within Deloitte Central Europe to work under Deloitte Croatia responsibility, but is independent of

the engagement. Normally this partner possesses specialized industry and technical skills applicable to the engagement and, in certain situations, is independent of the practice unit to enhance objectivity or to provide specialized resources.

The auditor’s report may only be issued if the reviewer is satisfied that the audit engagement team has made appropriate judgments and conclusions, and has complied with applicable standards and regulations.

Engagement reviews

Key components of engagement reviews (internal practice reviews) include:

- Risk-based engagement selection and consideration of all major industries served by Deloitte Croatia.
- Mandatory moderation panel to drive consistency in findings and engagement ratings.
- External partners and deputies who oversee practice reviews to increase consistency.
- Identifying appropriate resources (from within Deloitte Central Europe as well as from other Deloitte geographies) with the right experience and industry expertise, including establishing central review teams.

System of quality control (SQC)

SQC includes numerous elements such as documenting key areas of the SQC processes and controls and performing procedures for testing the operating effectiveness of the SQC, including execution of a comprehensive SQC review program.

Used in conjunction with other metrics, Audit Quality Indicators (AQIs) further assist Deloitte Croatia in developing and monitoring audit quality action plans and reporting on the progress in its audit quality journey. AQIs are integrated with ongoing AQMM activities.

In addition, proper timing and sequencing of audit activities, including timely reviews of work performed and the resolution of matters identified, are closely associated with high quality audits. Audit Quality Milestones are intended to drive consistency of engagement teams in project management, timing of when work is done, and necessary focus on engagement staffing, including sufficiency and expertise of assigned resources.

Causal factor analysis and remediation

Focusing on continuous improvement is essential to driving improvements in audit quality. Understanding why audit deficiencies occur is essential to the design of effective actions to remediate findings. Further, actions are taken when

audit deficiencies in the performance of an audit engagement are identified. An Audit Quality Plan is prepared by Deloitte Croatia and provides for effective implementation and monitoring of key audit quality priorities.

External inspections

In addition to Deloitte Croatia own monitoring of audit quality, we are subject to external reviews by the competent Ministry of Finance. Until 31 December 2017 we were subject to external reviews by the Croatian Chamber of Auditors and due to legislation amendments as of 1 January 2018 the competent body is the Ministry of Finance. The last quality assurance review referred to in Article 26 of the European Union's Regulation 537/2014 on specific requirements regarding statutory audit of public-interest entities was carried out in December 2017 by the Croatian Chamber of Auditors.

Statement on the effectiveness of the functioning of the internal quality control system

We confirm that we are satisfied that our internal quality controls and systems are robust, operate effectively, and allow us to readily identify any areas of potential enhancement. We continually seek to refine all aspects of our business and we use the findings of the practice review, other internal reviews and external regulatory reviews to enhance our system of quality control.

Independence, ethics, and additional disclosures

Deloitte Croatia Independence

Sets **independence policies and procedures** based upon the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants and Ethics Code for Professional Accountants (*Official Gazette 106/2016, 127/2017*). Performs full reviews of independence quality controls on a three-year cycle; annual focused reviews for the off-cycle years; and in-depth follow-up reviews as needed.

Performs **on-going monitoring** activities of firms—enabling continuous enhancements to policies, quality controls, tools, and practice support activities.

Utilizes **information systems and databases** to provide professionals with entity information to support compliance with personal and professional independence requirements, including financial interests and scope of service approvals.

Supports **independence awareness** through periodic communications and alerts, and development of guidance, learning and instructions.

Deloitte Croatia Independence

Deloitte Croatia has policies and procedures designed to address compliance with applicable professional standards that relate to independence. These policies and procedures are based on the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants, and are supplemented, as appropriate, to reflect additional national or regional requirements that may be more restrictive than the code. Deloitte Croatia leadership reinforces the importance of compliance with independence and related quality control standards, thereby setting the appropriate tone at the top and instilling its importance into the professional values and culture of Deloitte Croatia. Strategies and procedures to communicate the importance of independence to partners, other professionals and support staff have been adopted, emphasizing each individual's responsibility to understand and meet the independence requirements.

The key elements of the system of quality control that Deloitte Croatia implemented in accordance with its policies include the following:

- Engagement acceptance and monitoring
- Monitoring of rotation requirements
- Business relationship assessments and monitoring
- Use of independence business process tools, including the Deloitte Entity Search and Compliance (DESC) system, the Global Independence Monitoring System (GIMS), annual independence confirmations, and consultation procedures, to monitor compliance with independence requirements
- Procedures to identify and analyze non-compliance with independence requirements and apply related disciplinary measures and actions
- Independence-related learning and communications
- Assignment of responsibility for independence systems and controls
- An internal review of independence compliance was conducted during the year and the report was issued on 30 November 2018

Rotation of key audit partners and professionals

Deloitte Croatia maintains policies and procedures requiring rotation of key audit partners and staff. These differ for a public interest entity as defined in the Accounting Act (*Official Gazzete 78/2015, 134/2015, 120/2016, 116/2018*) (the "EU PIE") or entities defined as a public interest entity by Deloitte Croatia ("other PIE"). Individuals responsible for carrying out a statutory audit should not serve an EU PIE for more than seven consecutive years in the position of a key audit partner. They shall not participate again in the statutory audit of the audited EU PIE entity before three years have elapsed following cessation of such service. In case of other PIE, individuals responsible for carrying out a statutory audit should not serve other PIE for more than seven consecutive years in the position of a key audit partner. They shall not participate again in the statutory audit of the audited other PIE entity before three years have elapsed following cessation of such service. During the cooling-off period of three years, the key audit partner should not participate in the audit of the audited entity, perform the engagement quality control review, consult with the engagement team or the audited entity regarding technical or industry-specific issues, transactions or events or otherwise directly influence the outcome of the statutory audit.

While it is the primary responsibility of the individuals serving as key audit partners to ensure they comply with the rotation requirements, Deloitte Croatia implemented a monitoring process that includes among other analysis of client portfolios and individuals assigned in various roles to statutory audits and considering appropriate competence, capability, workload and availability of statutory auditors so as to enable these individuals to adequately discharge their responsibilities as key audit partners.

Disclosure in accordance with Article 13.2 (b)(iv) of the EU Audit Regulation

The total turnover achieved by the audit firms that are members of the network, resulting from the statutory audit of annual and consolidated financial statements: € 2 billion¹.

¹ Amount represents an estimate determined based upon best efforts to collect this data. Certain Deloitte audit firms registered to perform statutory audits in respective Member States provide statutory audit services as well as other audit, assurance and non-audit services. While Deloitte endeavored to collect specific statutory audit turnover for each EU/EEA Deloitte audit firm, in certain cases turnover from other services has been included. The turnover amounts included herein are as of 31 May 2018, except for a limited number of instances where a Deloitte audit firm has different financial year-end or has not finalized its reporting for such period. In these cases, turnover amounts are for the relevant financial year or preceding financial year. Where currency other than Euros is used in the Member State, the amount in Euros was translated using an average exchange rate in effect for the period 1 June 2017 to 31 May 2018.

Appendix B | Financial information

Disclosure in accordance with Article 13.2 (k) (i)-(iv) of the EU Audit Regulation

The breakdown of the Deloitte d.o.o. 2018 turnover:
