4. Audit Policy

This company shall implement the CDM Audit services by following the policy below:

CDM AUDIT POLICY

Our organization considers that our ultimate mission is to play an active role in cultivating the sound growth of corporations/groups and contribute to the sustainable development of society through our Audit Service. In order to accomplish this goal, it is essential to manage the organization and operate the Quality Management Systems (i.e. QMS) that can ensure fairness and independence for all parties that wish to use our Audit Service, regardless of the industry category or type and size of their business. Operating our business according to the following policies will enable us to fulfill our mission of providing assured audit services.

1. Fair management of the service

We shall ensure Audit/Registration Services to all Participants that wish to use them within the scope of the services we provide. Persons involved in the Audit Services shall not discriminate against any participant because of the size of their business or for any other reasons. Additionally, our services must be fair to all Participants.

2. Independent management of the service

We shall firmly hold our position as a third disinterested party, independent from any and all parties involved in order to conduct the Audit Service. Moreover, participants and auditors should be mutually considered as an independent party in the Audit Service. Therefore, there should be no improper pressures on auditors, nor catering to Participants involved. Our organization and persons involved in the Audit Service shall ensure impartiality and should be engaged in any activity that might fall under the category of consulting as part of the Audit Service.

3. Implementation and continual improvement of the QMS

We, as an Audit Service organization, shall build and implement a Quality Management System for Audit Service in accordance with the decisions made by the CDM executive board or the Standards stipulated by other regulatory organizations. All the Persons involved in our Audit Service shall strive to perform the tasks in accordance with the Quality Management System, and in a manner that will satisfy the needs and expectations of the participants involved and the society, to improve the quality of the said Service through the continual improvement of the Quality Management System.

November 1, 2003
Revised March 17, 2011

Hiroshi Inanaga
Chief Executive Officer

Deloitte Tohmatsu Evaluation and Certification Organization Co., Ltd

TECO-CP013 Provisions for CDM Audit System [Guidebook]	Date Enacted	1 May 2008	Page	6/10
	Date Revised	19 April, 2013	Ver.	7.0

5. Confidentiality

All personnel of this company have an obligation to keep secret information concerning the client that is obtained through the performance of services. This company will not disclose any client information to a third party without the written consent when such information is requested through a legal process. When complying with the law, this company will notify the client of the information to be disclosed and to whom the information will be disclosed. While client information may be disclosed to accreditation bodies during accreditation audit procedures, all personnel of accreditation bodies have the same obligation to secrecy as the personnel of this company.

6. Billing

A quotation (or equivalent documents) detailing audit fees shall be sent to the client. A quotation should be revised audit fees for audit-related cost to be incurred in the following cases.

- 1) when a service(s) not included in the quotation was provided
- 2) when an actual service boundary is significantly deviated from information provided by a customer at the quotation prepared period

7. Procedures of CDM Audit Service (See Appendix 1)

The CDM Audit service shall be implemented by following outline of procedures.

For Audit and other actions below, the VVS is used. Whenever VVS is revised by EB, which shall be replaced to newest one.

7.1. Formulation of Audit Plan / Preparation of Audit Implementation

An audit plan shall be formulated based on an emission inventory report provided from our customer. A basic interview survey for major emission sources and internal control system shall be implemented in order to formulate an effective and efficient audit service. The audit plan shall be sent to our customer in writing and confirmed after obtaining consent from our customer.

7.2. Document Review Prior to On-site Audit

The emission inventory report and other related reports shall be reviewed and discuss points to be checked and methodologies for the on-site audit. Additional documents and information shall be collected as necessary.

7.3. On-site Audit

On the basis of the document examination prior to on-site audit, the auditors will confirm vouchers and documents stored in the audit site, and evaluate emission amount of an emission inventory report by interview and observation.

TECO-CP013 Provisions for CDM Audit System [Guidebook]	Date Enacted	1 May 2008	Page	7/10
	Date Revised	19 April, 2013	Ver.	7.0

7.4. Report of Findings

Findings from the on-site audit shall be reported to our customer after summarization and evaluation.

- Corrective Action Request [CAR]: Issue(s) which does not adopt CDM requirement, or issue(s) which effect significant impact on calculation of emission (reduction) amount
- Forward Action Request [FAR]: No immediate thread currently, but possible issue which may affect impact on calculation of emission (reduction) amount in the hereafter

For the findings, the audit team shall fully exchange opinions with the client. On the basis of mutual consent, the audit team shall may request the customer for correction of the emission inventory report.

7.5. Preparation of Audit Report

After the confirmation to the finding by the customer, an audit report will be prepared. The audit result will be presented and submit the audit report. A representative letter shall be submitted by the client prior to a submission of the audit report.

7.6. Debriefing Session of Audit Result

As necessary, a debriefing session of audit result shall be held.

8. Operation and Quality Management Systems (See Appendix 2)

[Quality Management]

- First of all, the audit team leader shall review the Draft Audit Report to check its quality of audit result as the Audit Department.
- The Engagement Quality Assurance Review on the Draft Audit Report shall be performed by the GHG Team Leader.
- Technical review shall be performed by Quality Control Group. The technical review is to confirm the relevancy of the audit result by the reviewer who is not from the audit team in a position of independence and fairness.
- The CDM Judging Committee will judge the objectivity and impartiality on the Draft Audit Report which assured through the Engagement Quality Assurance Review on the request from the GHG Team Leader/CDM Manager according to the certification condition for each project. To accomplish this function, the CDM Judging Committee shall be only comprised of outside members from the business and academic communities, and NGO.

[CDM Project Management]

- The Steering Committee shall be set in order to discuss widely about the progress of audit and verification services and the existence or nonexistence and handling of appeals and complaints as well as give suggestions to the CEO for the operation policy of the CDM services overall.
- The Steering Committee shall be comprised of outside members from the business and academic
