Robotic process
automation (RPA)

Digital card

What is RPA?

- Robotic Process Automation (RPA) tools can help businesses improve the efficiency and effectiveness of their **operations faster and at lower cost** than other automation or integration approaches
- Digital workers can replace and work in co-operation with humans, and can be enriched with intelligent capabilities
- We help our clients with **automation strategy** (*operating model, business case, roadmap*), **vendor selection, opportunity identification, proof-of-value and pilot, and execution/delivery and scale-up**

Benefits of RPA

Saves time and money

Provides consistency – tasks are performed in the same way, time after time

Bots can undertake a much higher volume of tasks than a human

No break in service through illness, vacations or refreshment breaks

High levels of accuracy

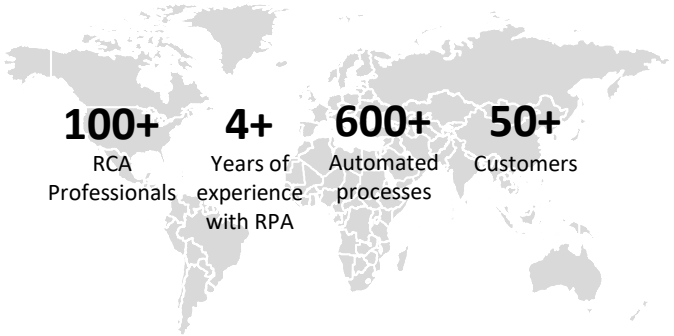

Lets you free up your team to focus on higher value work

Additional information

Global network:

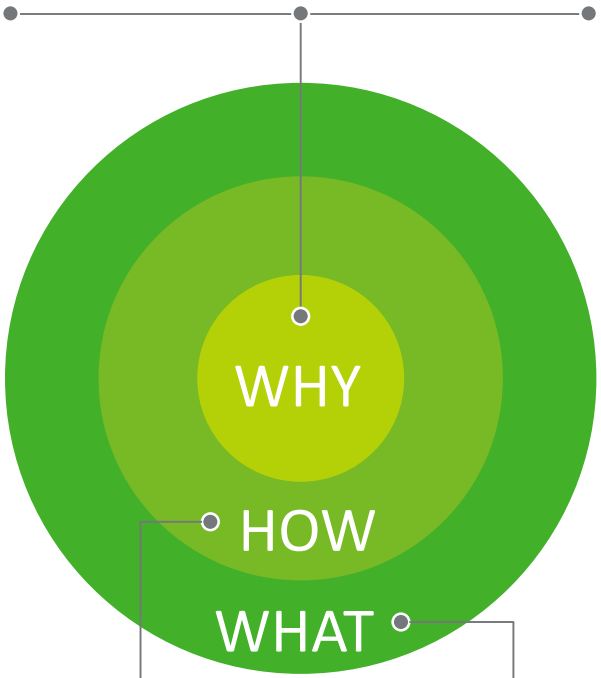

- 100+ RCA Professionals
- 4+ years of experience with RPA
- 600+ Automated processes
- 50+ Customs

Why Deloitte?

- Deloitte develops bots in-house and applies RPA to our own processes. The combination of tax knowledge and technical expertise helps to identify processes ready for automation.
- Deloitte helps by working with you to design the right solution, using the right technology. Our experienced RPA specialists use a proven methodology to understand your needs and providing a suitable bot as part of the solution.

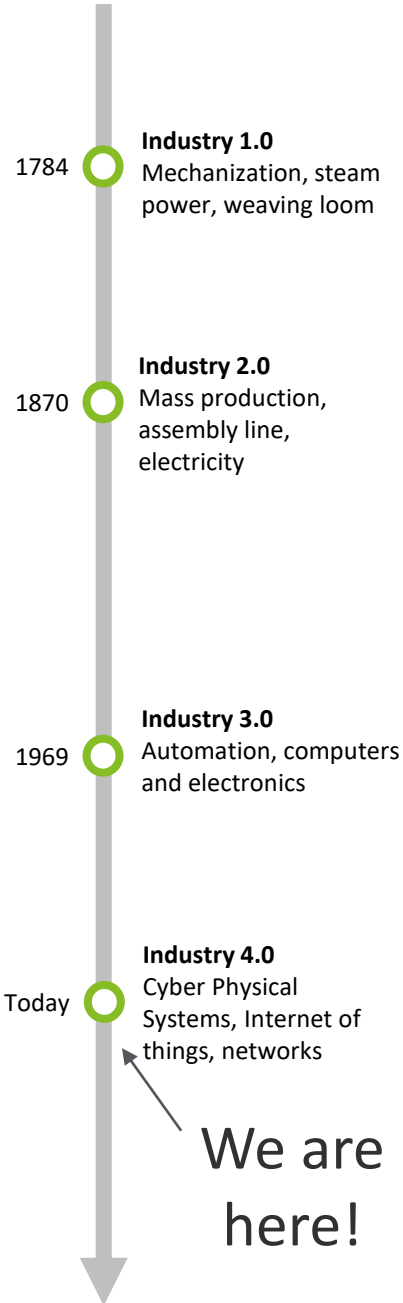

We believe that people should be able to focus on more creative, value-added work, giving them the opportunity to achieve higher productivity and operational excellence. Our bots will do the rest with 100% accuracy and 24/7 availability

We use the best in class RPA technologies and our global knowledge base to build high quality bots

We automate time-consuming processes, routine and repetitive actions and tasks

Industrial revolution
