Conference FintechINN Lithuania, 6 October 2016

Barclays Bank Rise Vilnius, Gynėjų str. 14, Vilnius

Financial technology, also known as FinTech, is an emerging innovation industry in the world. FinTech refers to new solutions which demonstrate an increasing or disruptive innovation development of processes, products or business models in the financial services industry. The main objective of this new industry is to make financial services quicker, cheaper, safer and more efficient.

The Financial Technologies Conference, organised by the Ministry of Finance of the Republic of Lithuania and the Bank of Lithuania in cooperation with the City of London is a unique opportunity to discuss the challenges for FinTech industry and its benefits for the society.
