

## B2C supplies, Luxembourg VAT

### Your challenge

- Do you provide electronic, broadcasting or telecommunications services to EU resident consumers? Are you currently accounting for VAT on these supplies, thereby impacting your bottom line margin?
- Join a growing number of your peers who have already taken the step to re-locate to Luxembourg to carry out such a business.
- By doing so, not only will you be able to take advantage of the VAT rules in place until 2015 that allow you to apply lower Luxembourg VAT rates to these supplies and therefore improve your bottom line margin, but you will also be able to take advantage of other infrastructural and economic advantages to performing such businesses out of Luxembourg.

### Our solution

- We provide an A to Z assistance to implement a relocation, covering not only the VAT aspects, but also other tax and practical aspects such as the setting up of the necessary company and the obtaining of the relevant business licence, as well as all your project management needs.
