

101 questions regarding your payroll

Within a very short time frame you receive an overview regarding opportunities and risks of your payroll

Wage charges, premium payments, travel allowances, fringe benefits, stock options, special remunerations for employees and much more – the necessary information is available within your company, but are these data considered in the correct way within the payroll?

It is a fact that mistakes and risks within your payroll accounting cannot be eliminated due to complexity of law and jurisdiction. Furthermore, it is a fact that these risks can be identified within the next wage tax audit. On the other hand possibilities of tax optimization are disobeyed quite often. The important thing is to never stop questioning.
