

## Breakfast Talk Series:

### Cybersecurity and Technology Risk Management in Financial Services

Despite heightened attention and unprecedented levels of security investment, the number of cyber incidents — and their associated costs — continues to rise. With the highest number of breaches and the costs associated with them annually, organisations within the financial services industry are at a higher risk of cyber attack than any other industry, globally. Apart from the damage to business operations, cyber attacks entail risks of reputation damage, financial losses, and regulatory issues for FSI players.

The concern typically revolves around the growing sophistication of malicious hackers and other adversaries, and whether being secure is even possible in today's rapidly evolving landscape of cyber-attacks. In addition, a notable volume of cyber threats can be traced to insiders as well, who intentionally or unintentionally, play a part in such threats, especially financial fraud.

Key drivers of cyber crime in FSI include the rise in mobile and online banking, the outsourcing of backend processes, and the increasing adoption of FinTech using cloud and IoT, which introduce new entry points for attackers to exploit a firm's vulnerabilities.

To stay ahead of this increasingly digital environment and advancing threats, financial services companies need to rethink current approaches to managing cyber risks – many of which are static and outdated. A new secure, vigilant, and resilient approach should be considered to manage these risks and create a cyber risk aware culture, from the top down.

During the talk we will be sharing some insights, including:

- The evolving threat landscape in the financial services industry
- A multipronged approach to manage these risks
- Defining characteristics of advanced cybersecurity programs
- Cybersecurity spending in financial services
- How to shift thinking around cyber as an "IT" problem to one that spans the entire enterprise
- Specific actions to implement this approach

<b>Venue</b>	Sule Shangri- La Hotel 223, Sule Pagoda Road, Yangon
<b>Speaker</b>	<b>Ho Siew Kei</b> , Executive Director, Risk Advisory, Deloitte Malaysia
<b>Date</b>	30 October 2019
