## Deloitte.

Deloitte refers to one or more of Deloitte Touche Tohmatsu Limited, a UK private company limited by guarantee ("DTTL"), its network of member firms, and their related entities. DTTL and each of its member firms are legally separate and independent entities. DTTL (also referred to as "Deloitte Global") does not provide services to clients. Please see [www.deloitte.com/mm/about](http://www.deloitte.com/mm/about) to learn more about our global network of member firms.

Deloitte provides audit, consulting, financial advisory, risk advisory, tax and related services to public and private clients spanning multiple industries. Deloitte serves four out of five Fortune Global 500® companies through a globally connected network of member firms in more than 150 countries and territories bringing world-class capabilities, insights, and high-quality service to address clients' most complex business challenges. To learn more about how Deloitte's approximately 245,000 professionals make an impact that matters, please connect with us on Facebook, LinkedIn, or Twitter.

#### About Deloitte Southeast Asia

Deloitte Southeast Asia Ltd – a member firm of Deloitte Touche Tohmatsu Limited comprising Deloitte practices operating in Brunei, Cambodia, Guam, Indonesia, Lao PDR, Malaysia, Myanmar, Philippines, Singapore, Thailand and Vietnam – was established to deliver measurable value to the particular demands of increasingly intra-regional and fast growing companies and enterprises.

Comprising 290 partners and over 7,400 professionals in 25 office locations, the subsidiaries and affiliates of Deloitte Southeast Asia Ltd combine their technical expertise and deep industry knowledge to deliver consistent high quality services to companies in the region.

All services are provided through the individual country practices, their subsidiaries and affiliates which are separate and independent legal entities.

#### About Deloitte in Myanmar

In Myanmar, services are provided by Deloitte Touche Myanmar Vigour Advisory Limited and its affiliates.

## Sustainability Risk Management

Driving responsible growth

# The Deloitte Platform of Sustainability Services

	Services	Details
Sustainability Strategy and Governance	ESG	Identify and assess the material environmental, social and governance ("ESG") risks and opportunities that substantially impact the organisation's operating environment.
	KPI Development	Establish frameworks and systems to identify, measure, value, and track targets in relation to sustainability performance against the organisation's key objectives and goals.
	Economic Optimisation	Evaluate the most cost effective alternative under the given constraints by maximising the desired factors, and minimising the undesired ones.
	Social Strategy	Identify, measure, value, monitor, and report the social impacts of projects, programmes, and policies, so as to maximise their social impact, and shared value opportunities.
Carbon, Energy and Resource Management	Carbon and Energy Management	Analyse energy usage, identify source of carbon emission (based on ISO/TS 14067, PAS 2050, GHG Protocol, etc.) and provide recommendations for efficient carbon and energy management to achieve cost savings, and mitigate carbon emissions.
	Resource Management	Manage the operational and environmental impacts of natural resources consumption by translating analytical insights into actionable cost savings, risk mitigation opportunities, and social and economic value.
	Waste Management	Analyse sources and types of waste, provide recommendations to minimise waste generation or convert it into useful resources.
	Product Lifecycle Assessment	Assess (based on ISO 14040/44) to quantify the end-to-end environmental, economic and social impacts of a product, process, or service to identify areas of cost savings, improving design decisions, achieving compliance, and driving value to the community.
Supply Chain	Environmental Audit	Conduct audits (based on ISO 14000 standards) to ensure environmental compliance and adherence to supplier's code of conduct.
	Social Audit	Conduct audits (based on ISO 26000 standards, SA8000, etc.) to ensure societal compliance and adherence to supplier's code of conduct.
	Sustainability Sourcing Framework	Align supply chain capabilities with strategy addressing supplier engagement, sourcing and procurement, packaging, closed-loop recycling, supply chain transparency, and upholding international human and labour rights.
Reporting and Compliance	Sustainability Reporting	Create report (based on GRI standards, UNGC principles, etc.) for the organisation to communicate sustainability performance and gain global recognition on sustainability achievements.
	Integrated Reporting	Assist the organisation in applying the concept of integrated thinking to achieve strategic objectives and communicate value creation based on financial, manufactured, intellectual, human, social and relationship, and natural capital.
	Gap Analysis on Sustainability Report	Assess relative strengths and weaknesses in existing reports and offer a fresh perspective to improve the next sustainability report as per reporting requirements.
	Sustainability Assurance	Provide both internal and external assurance on sustainability reports, greenhouse gas (GHG) statements, and other forms of non-financial information based on globally accepted standards such as ASAE3000, ISAE3000/3420, AA1000AS, and AA1000SES.
Environment, Health and Safety	Health & Safety Advisory	Integrate critical health and safety processes into broader operational risk management and sustainability programmes.
	Safety Audit	Assess (based on OHSAS 18001) processes to improve compliance and management of this critical area by conducting safety audits.
	Environment Compliance Audit	Provide an independent assessment of the organisation's environmental compliance against its environmental licenses, permit conditions and internal environmental policies.
Social Impact	Stakeholder Engagement	Assist the organisation in advancing its sustainability agenda by advising on stakeholder engagement strategies and assessments, including engagement measurement and design services.
	Impact Assessment	Assess the likely effects the organisation exerts on its surroundings, in operational, environmental and social terms. Conscious management of the impact translates into lower costs, improved external relations and better managed risks.
