Deloitte and Thomson Reuters combine the expertise of a strong consultant plus the reliability of a proven Technology solution, to offer a comprehensive full fledge and turn-key projects to optimize the organization's supply chain creating value and competitive advantages.

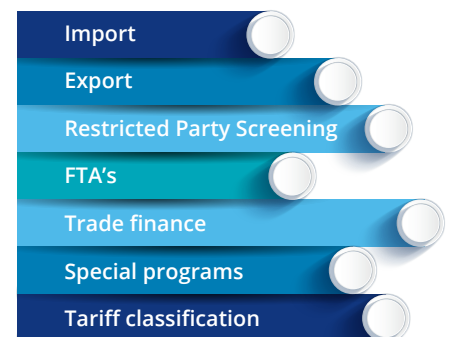

Value proposition

It's have disruptive global trade rules with an everyday changing environment that make the use of information technologies for customs activities a must. ONESOURCE Global Trade is a unique solution that combines:

- A strong technological platform
- Reliable implementation processes
- Up-to-date content
- Full customs compliance vision
- Focus on accuracy and value-added activities

Built with world-class technology and backed by leading industry experts, ONESOURCE Global Trade simplifies the entire global trade management process by automating routine tasks and opening up the opportunity for global trade professionals to focus on value-added activities.

ONESOURCE Global Trade offers a comprehensive set of software solutions for operating, controlling and managing several foreign trade modules:

Intended for

- Mexican Multinational companies with complex supply chain management
- Medium size companies seeking to optimize supply chain management

Features

Rapid global deployment — ONESOURCE Global Trade is a truly localized solution whereby in-country subject matter experts design the local product to reflect the country-specific regulations, language and business needs, allowing quick deployment without extensive customization or local content sourcing.

Automatic updates — Regulatory changes are automatically updated and reflected in

the solution so users minimize risk and stay aware and confident throughout the global trade process.

Special programs — ONESOURCE Global Trade covers common special programs, such as:

- Foreign Trade Zone
- Duty Drawback
- Special Tariff Provisions (9801, 9802)
- Bonded Warehouse

Free Trade Agreements (FTAs) — Integrated software and content solution allowing companies to determine whether the goods that they produce are subject to regulation/criteria/rules or eligible for preferential treatment and duty rates under FTAs.

Restricted Party Screening (RPS) — A solution fully integrated with the company's corporate system (ERP), allowing the validation of business partners (customers and suppliers), backed by the World Check database.
