Deloitte Academy

Malaysian Private Entities Reporting Standards (MPERS)

7 CPE Hours
HRDF Claimable

Overview

Starting in January 2016, all private entities would be required to apply a single financial reporting framework – the Malaysian Private Entities Reporting Standards (MPERS).

The Malaysian Accounting Standards Board (MASB) issued the MPERS as a financial reporting framework to replace the previous Private Entities Reporting Framework (PERS), and it contains 35 sections covering all relevant areas for financial reporting by private entities. A question frequently asked by private entities is, how different is the MPERS framework from the MFRS framework?

At Deloitte, we understand the requirement will have implications and pose challenges to private entities in different ways. As MPERS has been found to be an easier option to apply when compared to the MFRS Framework, our training course aim to help our participants understand the sections of MPERS, the financial impact of MPERS and arrange for the implementation of the MPERS in order to ease the reporting of their financial statements.

Highlights

- Gain understanding of the implementation of MPERS in Malaysia
- Apply of the concepts and requirements in MPERS

Who should attend?

- Company Directors
- C-Suites Officers
- Accountants
- Auditors
- Academicians
- Finance Professionals
