

## Deloitte Tax Challenge 2018

### Team Category - Semi-finals

#### Oral Presentation Challenge

The Government is aware that the emergence of digital economy generates opportunities to attract foreign investments into Malaysia. These foreign investments are anticipated to build and upgrade industries, connect local businesses to international markets, and drive essential innovation and competitiveness.

Recognising this, the Government has introduced various tax incentives such as pioneer status, double tax deduction, principal hub, Multimedia Super Corridor (MSC), etc. to attract foreign investments into Malaysia. However, there is still a decline in foreign investments in Malaysia in year 2017, dropping below USD 10 billion for the first time since year 2010.

#### Required

Your team is given 15 minutes to present a proposal to the Government on suggestions for Budget 2019 in regards to the measures to attract foreign investments into Malaysia, particularly in the digital and technology sector. Your suggestions may include both tax and non-tax measure(s).
