Programme

Morning session

The employer's mandate

Objective

The roles of an employer have evolved significantly in recent years. Employers now have to be more accountable to the employees to comply with stringent regulations and procedures to avoid penalties and uphold corporate reputation. Human resources and finance professionals in organizations are critical support to the success of an employer. This seminar presented by the leaders of Deloitte seeks to align the understanding of both human resources and finance professionals of various issues that impact the organisation.

Our seminar will cover:

- Optimising corporate tax incentives for employees
- What authorities seek to unravel in a statutory employer's audits
- Responsibilities of the employer if the employee no longer files his tax return and relies on the employer's reporting
- The unknown corporate implication arising from employees who travel frequently

Afternoon session

GST compliance workshop

Objective

With the onset of GST, the GST registered businesses now have the additional responsibility to compile, prepare and file GST compliant returns with the Royal Malaysian Customs. Preparing a compliant GST return is complex as there are many intricacies to be addressed. Any errors made may result in penalties and also unwanted negative publicity. It is therefore crucial that those who are preparers or having responsibility for the GST returns obtain a good understanding of the preparation and filing process, information required in the returns, common errors made and other guidance to prepare a compliant return.

This is one of the series of GST workshops designed to highlight the finer details involved in preparation of the GST return, the common mistakes to avoid and the recent developments in this area. Delivered by our dedicated GST professionals with a passion for the subject and focus on both technical and practical issues, these workshops will provide you an insight amongst others, on how to prepare the GST return, the tax coding, an opportunity to ask questions or clear your doubts with our GST professionals via a one-on-one session.

Areas to be covered in the workshop would include the following:

- Insight on how to prepare the GST return
- Awareness on the tax coding and its mapping
- Briefing on the costly mistakes to avoid in the GST return
- Sharing of our experience / findings on the common errors made in the GST returns
- Guidance on how to get ready for the GST audit in particular for refund cases

Recognising that each business is unique and there are still many questions and uncertainties to be addressed, we are incorporating a one to one discussion with our panel of GST professionals to address any specific questions or doubts via our special GST clinic session.

Who should attend

The programme is designed for company directors, CFOs, Financial controllers, Finance / Tax managers, accountants, Heads of Human Resources, Human Resource Managers etc.
